Synopsis of the Order

1. In the document summarized here, the Common Carrier Bureau, acting on delegated authority, takes action to provide for the filing of the April 2000 Telecommunications Reporting Worksheet and for the distribution of essential contributor revenue data to the administrators of the: (1) Telecommunications Relay Services Fund; (2) the cost recovery mechanism for numbering administration; (3) the cost recovery mechanism for long-term local number portability; and (4) the universal service support mechanism. These actions are necessary to ensure that the administrators of these support and cost recovery mechanisms will each have access to reliable and timely data on which to base contributions to these mechanisms.

2. Specifically, as set out below, we direct the National Exchange Carriers Association (NECA) to perform the data collection functions for the April 2000 filing, in accordance with the joint proposal submitted by the administrators of the four support and cost recovery mechanisms. We also set out procedures for the administrators to submit proposed arrangements for future filings. The Order directs that the administrators file by May 15, 2000 any proposals for handling the September 2000 and both the April and September 2001 filings. We expect that the procedures approved in the Order will result in lower administrative costs overall and will ensure the lowest possible regulatory burden on the telecommunications service providers that contribute to these support and cost recovery mechanisms.
