

Administrator for Air, Noise and Radiation.

The proposed Settlement Agreement provides for the Project to dismiss its challenge if EPA issues a brief memorandum clarifying certain issues in the 1999 Policy and if that brief memorandum is substantially similar to what is set forth as Attachment A to the proposed Settlement Agreement. In general, the brief memorandum would provide that the 1999 Policy was intended to provide the parameters for EPA review of future SIP submissions and was not intended to be legally dispositive when interpreting existing approved SIPs in the context of enforcement proceedings.

For a period of thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the proposed Settlement Agreement from persons who were not named as parties or interveners to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed Settlement Agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determine, following the comment period, that consent is inappropriate, the proposed Settlement Agreement will be final.

Dated: July 9, 2001.

John T. Hannon,

Acting Associate General Counsel.

BILLING CODE 6560-50-U

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7014-6]

Notice of Public Meetings; Extension of Intel Project XL

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that Intel and EPA plan to continue their innovative partnership under the Excellence and Leadership Program (XL) through renewal of an existing agreement. Because the Intel XL Project is based on strong stakeholder involvement, Intel and EPA are announcing a series of public meetings at which extension of the Intel XL Project will be discussed. Intel and EPA are inviting public participation at those meetings for those people interested in

the Intel XL Project, or the XL Program in general. Public participation is also encouraged via the internet.

DATES AND ADDRESSES: All public meetings will be held at the Chandler Public Library, City Council Chamber, 2nd Floor, 222 E. Commonwealth Ave., Chandler, Arizona at 6:30 p.m. Meetings will be held on the following dates: July 24, 2001
August 21, 2001
September 18, 2001
October 16, 2001
November 13, 2001

FOR FURTHER INFORMATION CONTACT: Colleen McKaughan, Associate Director, Air Division (AIR-1), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105; Telephone: (520) 498-0118; Email: mckaughan.colleen@epa.gov.

SUPPLEMENTARY INFORMATION: In March of 1995, EPA announced a new environmental program called Project XL, or Excellence and Leadership. The purpose of this program is to work with interested companies, state and local agencies, and communities to develop innovative approaches for addressing environmental issues. Among the qualifications for an XL Project, a company's innovative ideas must provide better environmental performance compared to compliance with both current and future regulations, produce cost savings, and significantly involve the community.

Intel Corporation was an early volunteer for this program and sponsor of one of the first eight projects selected by EPA in November 1995. Intel convened a stakeholder team made up of representatives of EPA, the Gila River Indian Community, the State of Arizona, Maricopa County, the City of Chandler, and four members of the public. The stakeholder team developed a project that provided operational flexibility for Intel while providing greater environmental protection to the community. The details of the project are spelled out in the Final Project Agreement (FPA) dated November 19, 1996 (available on EPA's website at <http://www.epa.gov/ProjectXL/intel/index.htm> and Intel's website at <http://www.intel.com/intel/other/ehs/projectxl>). The FPA was signed by the stakeholders, and has been implemented successfully as a pilot project over the last 5 years.

Intel and EPA would like to extend the Intel XL Project for another 5 years, based on the successful pilot program. This extension is also supported by the stakeholders, most of whom have participated in the project's

implementation over the past 5 years. In order to extend the project, the FPA and Intel's operating permit need to be renewed. Intel and EPA would like to invite the public to participate in the discussions related to these renewals.

There are several ways to participate. People can attend the meetings which are listed in this notice, or they can participate through the internet. Comments can be posted to the Intel website at <http://www.alt-path.com/ocotillo>. If you wish to speak to someone in person regarding participating in this effort, you may also contact Colleen McKaughan of EPA at: 520-498-0118 or mckaughan.colleen@epa.gov.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: July 12, 2001.

Elizabeth A. Shaw,

Director, Office of Environmental Policy Innovation.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-34225G; FRL-6791-9]

Diazinon; Products Cancellation Order

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's cancellation order for the product and use cancellations as requested by three companies (Drexel Chemical Co., Aventis Environmental Science and Gowan Co., hereafter collectively referred to as the "MUP Registrants") that hold the registrations of pesticide manufacturing-use and end-use products (MUPs and EUPs) containing the active ingredient diazinon and accepted by EPA, pursuant to section 6(f) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This order follows up a May 30, 2001, notice of receipt of the three companies' requests for cancellations and amendments of their diazinon product registrations to terminate all indoor uses and certain agricultural uses. In the May 30, 2001 notice, EPA indicated that it would issue an order confirming the voluntary product and use registration cancellations unless the Agency received any substantive comment within the comment period that would merit its further review of these requests. The Agency received comments on outdoor non-agricultural uses. This notice addresses these comments, which do not effect the

Agency's decision to grant the MUP registrant's request. Any distribution, sale, or use of the products subject to this cancellation order is only permitted in accordance with the terms of the existing stocks provisions of this cancellation order. This notice also announces EPA's amendment to a cancellation order that was issued on April 24, 2001 and published in the **Federal Register** on May 2, 2001. The order is amended to include an existing stock provisions for products bearing instructions for any of the canceled agricultural uses.

DATES: The cancellations are effective July 19, 2001.

FOR FURTHER INFORMATION CONTACT: By mail: Ben Chambliss, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460, telephone number: (703) 308-8174; fax number: (703) 308-7042; e-mail address: chambliss.ben@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. You may be potentially affected by this action if you manufacture, sell, distribute, or use diazinon products. The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does not apply because this action is not a rule, for purposes of 5 U.S.C. 804(3). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the **Federal Register**—Environmental Documents. You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>. To access

information about the risk assessment for diazinon, go to the Home Page for the Office of Pesticide Programs or go directly to <http://www.epa.gov/pesticides/op/diazinon.htm>.

2. *In person.* The Agency has established an official record for this action under docket control number OPP-34225G. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as Confidential Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305-5805.

II. Receipt of Requests to Cancel and Amend Registrations to Delete Uses

A. Background

In separate letters dated February 20, 2001, for Aventis Environmental Science, March 6, 2001, for Drexel Chemical Company and April 26, 2001, for Gowan Company, manufacturers of MUPs and registrants of EUPs containing diazinon, requested cancellation of all indoor and certain agricultural uses from their diazinon products to reduce the potential exposure to children associated with diazinon containing products. The letters, with the exception of the letter from Aventis, also requested that EPA cancel their registrations for the manufacturing-use pesticide products containing diazinon, conditioned upon issuance of replacement registrations which do not allow their use in formulation of end-use products for the deleted uses, and which includes expiration of the registration for outdoor non-agricultural uses. The letter from Aventis Environmental Science, requested cancellation of its MUPs without issuance of replacement registrations. EPA has acted on the requests and issued new registrations in March and May 2001. In addition, these companies have asked EPA to cancel or

amend their registrations for end-use products containing diazinon consistent with the use cancellation request. The uses for which termination was requested are identified in the following List 1.

List 1. — Uses Requested for Termination

Indoor uses. Pet collars, or inside any structure or vehicle, vessel, or aircraft or any enclosed area, and/or on any contents therein (except mushroom houses), including food/feed handling establishments, greenhouses, schools, residences, museums, sports facilities, stores, warehouses, and hospitals.

Agricultural uses. Alfalfa, bananas, Bermuda grass, dried beans, dried peas, celery, red chicory (radicchio), citrus, clover, coffee, cotton, cowpeas, cucumbers, dandelions, forestry (ground squirrel/rodent burrow dust stations for public health use), kiwi, lespedeza, parsley, parsnips, pastures, peppers, potatoes (Irish and sweet), sheep, sorghum, squash (winter and summer), rangeland, Swiss chard, tobacco, and turnips.

Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA announced the Agency's receipt of these requests from the MUP registrants by a **Federal Register** notice published on May 30, 2001 (66 FR 29310) (FRL-6785-2). In that notice, EPA provided a 30-day comment period. The registrants requested that the Administrator waive the 180-day comment period provided under FIFRA section 6(f)(1)(C). EPA also approved the replacement registrations for the registrants' diazinon manufacturing-use products in March and May 2001.

Before the May 30th publication of the 6(f) notice announcing the diazinon product and use cancellation requests, EPA received many comments from growers, as well as the U.S. Department of Agriculture, expressing that the use of diazinon pesticide products is vital for many of the agricultural uses identified in List 1 of this notice. According to the comments, there is a nationwide need for the application of diazinon products on spinach, strawberries, and tomatoes.

There are also needs for the application of diazinon products on certain crops in certain states. These needs are identified in the following Table 1.

TABLE 1. — SPECIFIC REGIONAL NEED FOR DIAZINON END-USE PRODUCTS

Crop	Use Area(s)
Bananas Celery	Hawaii Texas

TABLE 1. — SPECIFIC REGIONAL NEED FOR DIAZINON END-USE PRODUCTS—Continued

Crop	Use Area(s)
Cucumbers	Texas
Ground squirrel/rodent burrow dust stations for public health use	California
Parsley	Texas and California
Parsnips	Texas and Oregon
Peas, succulent	Texas and Maryland
Peppers	Texas and California
Potatoes, Irish	Texas, Washington and Michigan
Potatoes, sweet	Texas
Squash, summer and winter	Texas and California
Swiss Chard	Texas
Turnips, root	Texas and Oregon
Turnips, tops	Texas and Oregon

In response to these comments, the MUP Registrants agreed to maintain on their diazinon product registrations the use on spinach, strawberries and tomatoes. EPA's assessment of risks associated with the use of diazinon products concluded that all acute and chronic dietary risk estimates are below the Agency's level of concern. EPA's assessment considered all currently registered uses, including the agricultural uses identified in List 1. There may also be adequate data to support the tolerances for spinach, strawberries and tomatoes. EPA is currently reviewing residue data for these crops recently provided by the registrant to determine their acceptability. Accordingly, pursuant to FIFRA section 3(c)(7)(A), EPA approved the amendments of the MUP Registrants' replacement manufacturing-use product registrations to permit formulation and reformulation into products bearing instructions for spinach, strawberries and tomatoes. As amended, the approved replacement registrations for the MUP Registrants diazinon manufacturing-use products permit formulation and reformulation into products bearing instructions only for the agricultural uses identified in the following List 2.

List 2. — Agricultural Uses in Technical Registrants' Replacement Manufacturing-Use Product Registrations

Almonds, apples, apricots, beans (seed treatment only) except soybeans, beets, blackberries, blueberries, boysenberries, broccoli, cattle (non-lactating; ear tags only), Chinese broccoli, Brussels sprouts, cabbage, Chinese cabbage (bok choy and napa),

cantaloupes, carrots, Casaba melons, cauliflower, cherries, collards, field corn (seed treatment only), sweet corn (including seed treatment), cranberries, Crenshaw melons, dewberries, endive (escarole), ginseng, grapes, honeydew melons, hops, kale, lettuce, lima beans (seed treatment only), loganberries, melons, muskmelons, mustard greens, Chinese mustard, nectarines, onions, peaches, pears, peas (seed treatment only), Persian melons, pineapples, plums, prunes, radishes, Chinese radishes, raspberries, rutabagas, spinach, strawberries, sugar beets, tomatoes, walnuts, watercress (Hawaii only), and watermelons.

Similarly, in today's cancellation order, EPA is approving the registrants' requested cancellations and amendments of the diazinon end-use products registrations, to terminate all uses identified in List 1 except spinach, strawberries and tomatoes. The individual states identified in Table 1 of this notice, may wish to issue special-local-need registrations under FIFRA section 24(c) for diazinon end-use products to address the specific agricultural needs in their states respectively, as identified in Table 1.

EPA also received two comments asking that EPA cancel the outdoor non-agricultural uses of diazinon products now rather than in 2004. In assessing outdoor non-agricultural uses of diazinon products, EPA has considered many factors, including:

1. The risks and the benefits associated with such uses.
2. The phasing out over the next 3 years of the production of diazinon technical products that can be formulated or reformulated into products labeled for outdoor non-agricultural uses.
3. The possibility of and potential impacts from any litigation that may result from a proceeding by EPA to cancel these uses.

Based on its consideration of all of these factors, EPA currently is not contemplating initiating a regulatory proceeding to cancel these uses.

B. Requests for Voluntary Cancellation of Manufacturing Use Products

Pursuant to FIFRA section 6(f)(1)(A), the registrants submitted requests for voluntary cancellation of the registrations for their diazinon manufacturing-use products, conditioned upon EPA's issuance of replacement registrations for these products which do not allow their formulation or reformulation into products bearing instructions for indoor use or certain agricultural uses, as identified in List 1 of this notice. The

product registrations for which cancellations were requested are identified in the following Table 2.

TABLE 2. — MANUFACTURING-USE PRODUCT REGISTRATION CANCELLATION REQUESTS

Company	Reg. No.	Product
Aventis Environmental Science	432-1094	Pyrenone Diazinon
Aqueous Base Science	432-1130	Pyrenone Diazinon S.E.C.
Gowan Company	10163-212	Gowan Diazinon Technical
Drexel Chemical Co.	19713-104	Diazinon Technical

As mentioned in Unit II.A of this notice, EPA received comments requesting that the Agency continues to permit the use of diazinon products on certain agricultural sites that the MUP Registrants had proposed to cancel. In response to these comments, pursuant to FIFRA section 3(c)(7)(A), EPA approved the MUP Registrants' amendments of the replacement registrations for their diazinon manufacturing-use products to permit formulation and reformulation of these replacement manufacturing use products into products bearing instructions for spinach, strawberries, and tomatoes, because there appears to be a nationwide need for the use of diazinon products on these crops. The individual states identified in Table 1 above, may wish to issue special-local-need registrations under FIFRA section 24(c) for diazinon end-use products to meet the specific agricultural needs in their states, as identified in Table 1. Because the concerns expressed in the comments have been addressed, EPA is issuing an order in this notice canceling the registrations identified in Table 2, as requested by the MUP Registrants.

C. Requests for Voluntary Cancellation of End-Use Products

In addition to requesting voluntary cancellation of its diazinon manufacturing-use product registrations, Syngenta also submitted requests for voluntary cancellation of the registrations for its diazinon end-use products that are registered primarily for indoor use. These end-use product registrations for which cancellation was requested are identified in the following Table 3.

TABLE 3. — END-USE PRODUCT REGISTRATION CANCELLATION REQUESTS

Company	Reg. No.	Product
Syngenta Crop Protection, Inc.	100-463	D.Z.N. DIAZINON 4E Insecticide
	100-785	Evict Indoor/Outdoor WBC
Aventis Environmental Science	432-907	Ford's Diazinon 4E Insecticide
	432-979	Pyrenone Diazinon Residual Concentrate Insecticide
	432-987	Pyrenone Diazinon Residual Spray Insecticide
	432-1062	Roach and Ant Spray Aqueous
	432-1108	Pyrenone Diazinon W.B.
	432-1114	Pyrenone Diazinon Water Based Pressurized Spray
	432-1119	Pyrenone Diazinon Water Based Pressurized Spray II

EPA did not receive any comments expressing a need for diazinon products for indoor use. Accordingly, EPA is issuing an order in this notice canceling the registrations identified in Table 3, as requested by Syngenta and Aventis.

D. Requests for Voluntary Amendments of End-Use Product Registrations to Terminate Certain Uses

Pursuant to section 6(f)(1)(A) of FIFRA, the Technical Registrants submitted requests to amend a number of their diazinon end-use product registrations to terminate the uses identified in List 1 of this notice. The registrations for which amendments to terminate uses were requested are identified in the following Table 4.

TABLE 4. — END-USE PRODUCT REGISTRATIONS REQUESTS FOR AMENDMENTS TO TERMINATE USES

Company	Reg. No.	Product
Drexel Chemical Co	19713-91	Diazinon Insecticide
	19713-92	D-264 4E Diazinon Insecticide
	19713-95	D-264 14G
	19713-145	D-264 Captan Seed Protection
	19713-263	DIAZINON 5G
	19713-264	DIAZINON 2G
	19713-317	Bug Spray (SP)
	19713-492	Diazinon 50 WP

As mentioned in Unit II.A of this notice, EPA received comments requesting that the Agency continue to permit the use of diazinon products on certain agricultural sites that the Technical Registrants had proposed to cancel. In response to these comments, the Technical Registrants have agreed to retain the use on spinach, strawberries, and tomatoes on their current diazinon end-use product registrations. The individual states identified in Table 1, may also wish to issue special-local-need registrations under FIFRA section 24(c) for diazinon end-use products to meet the specific agricultural needs in their states, as identified in Table 1. Accordingly, EPA is issuing an order in this notice approving the amendments of the registrations identified in Table 4 to terminate all uses identified in List 1 except spinach, strawberries, and tomatoes.

III. Cancellation Order

Pursuant to section 6(f) of FIFRA, EPA hereby approves the requested diazinon product registration cancellations and amendments to terminate all indoor uses and certain agricultural uses, as identified in List 1 of this notice, except spinach, strawberries, and tomatoes. Accordingly, the Agency orders that the diazinon manufacturing use product registrations identified in Table 2 of this notice, and the diazinon end-use product registrations identified in Table 3 of this notice, are hereby canceled. The Agency also orders that all of the uses identified in List 1, except spinach, strawberries, and tomatoes, are hereby canceled from all end-use product

registrations identified in Table 4. Any distribution, sale, or use of existing stocks of the products identified in Tables 2-4 in a manner inconsistent with the terms of this order or the existing stock provisions in Unit IV of this notice will be considered a violation of section 12(a)(2)(K) of FIFRA and/or section 12(a)(1)(A) of FIFRA.

IV. Existing Stocks Provisions

For purposes of this Order, the term "existing stocks" is defined, pursuant to EPA's existing stocks policy (56 FR 29362, June 26, 1991), as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the amendment or cancellation. The existing stocks provisions of this cancellation order are as follows:

1. *Distribution or sale of manufacturing-use products.* Distribution or sale by any person of the existing stocks of any product identified in Table 2 of this notice, will not be lawful under FIFRA after July 19, 2001, except for the purpose of returns for relabeling consistent with the Technical Registrants' cancellation request letters and the memorandum of agreement (MOA), shipping such stocks for export consistent with the requirements of section 17 of FIFRA, or proper disposal.

2. *Use of manufacturing-use products to formulate for indoor use.* Use by any person of the existing stocks of any product identified in Table 2 of this notice, for formulation or reformulation into any product that bears instructions for indoor use will not be lawful under FIFRA after July 19, 2001. All other uses of such products may continue until the existing stocks are exhausted, provided that such use does not violate any existing stocks provision of this cancellation order and is in accordance with the existing labeling of that product.

3. *Use of manufacturing-use products to formulate for agricultural use.* Use by any person of the existing stocks of any product identified in Table 2 of this notice, for formulation or reformulation into any product bearing instructions for the agricultural uses identified in List 1 of this notice, except spinach, strawberries and tomatoes, will not be lawful under FIFRA after the date of publication of this **Federal Register** notice. All other uses of such products may continue until the existing stocks are exhausted, provided that such use does not violate any existing stocks provision of this cancellation order and is in accordance with the existing labeling of that product.

4. *Sale or distribution of indoor end-use products by MUP registrants.* Sale or distribution by the MUP registrants of the existing stocks of any product identified in Table 3 or Table 4 of this notice that bear instructions for indoor use will not be lawful under FIFRA after July 19, 2001, except for the purposes of returns for relabeling consistent with the Technical Registrants' cancellation request letters and the MOA, shipping such stocks for export consistent with the requirements of section 17 of FIFRA, or proper disposal.

5. *Retail and other sale or distribution of indoor end-use products.* Sale or distribution by any person of the existing stocks of any product identified in Table 3 or Table 4 of this notice that bear instructions for indoor use will not be lawful under FIFRA after December 31, 2002, except for the purpose of returns for relabeling consistent with the Technical Registrants' cancellation request letters and the MOA, shipping such stocks for export consistent with the requirements of section 17 of FIFRA, or proper disposal.

6. *Distribution or sale of diazinon end-use products bearing directions for use on agricultural crops.* Sale and distribution by the registrant of end-use products bearing directions for use on any of the canceled agricultural crops will be unlawful 1-year after the effective date of this cancellation order. Persons other than the registrant may continue to sell existing stocks after the effective date of the cancellation order.

V. Amendment to April 24, 2001 Cancellation Order (66 FR 21967 (May 2, 2001))

Pursuant to sections 6(f) and 6(a)(1) of FIFRA, EPA hereby amends its cancellation order that was issued on April 24, 2001 and published in the May 2, 2001 issue of the **Federal Register**. The order is hereby amended to include in section IV of the order the following existing stocks provision.

Distribution and sale of end-use products bearing instructions for use on agricultural crops. The distribution or sale of the existing stocks by the registrant of any product listed in Table 3 or 4 that bears instructions for any of the agricultural uses identified in List 1, except spinach, strawberries and tomatoes, will not be lawful under FIFRA 1-year after the effective date of the cancellation order. Persons other than the registrants may continue to sell or distribute the existing stocks listed in Table 3 or 4 that bears instructions for any of the agricultural uses identified in List 1 after the effective date of the cancellation order.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[PF-1033; FRL-6793-9]

Notice of Filing a Pesticide Petition to Establish a Tolerance for a Certain Pesticide Chemical in or on Food

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the initial filing of a pesticide petition proposing the establishment of regulations for residues of a certain pesticide chemical in or on various food commodities.

DATES: Comments, identified by docket control number PF-1033, must be received on or before August 20, 2001.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I.C. of the **SUPPLEMENTARY INFORMATION**. To ensure proper receipt by EPA, it is imperative that you identify docket control number PF-1033 in the subject line on the first page of your response.

FOR FURTHER INFORMATION CONTACT: By mail: Dan Peacock, Insecticide-Rodenticide Branch, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 305-5407; e-mail address: peacock.dan@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be affected by this action if you are an agricultural producer, food manufacturer or pesticide manufacturer. Potentially affected categories and entities may include, but are not limited to:

Cat-egories	NAICS codes	Examples of potentially affected entities
Industry	111	Crop production
	112	Animal production
	311	Food manufacturing
	32532	Pesticide manufacturing

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in the table could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether or not this action might apply to certain entities. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulation and Proposed Rules," and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

2. *In person.* The Agency has established an official record for this action under docket control number PF-1033. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as confidential business information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall
