SUPPLEMENTARY INFORMATION:**I. Background**

FDA is announcing the availability of a new guidance for small business entities entitled "Organ-Specific Warnings: Internal Analgesic, Antipyretic, and Antirheumatic Drug Products for Over-the-Counter Human Use—Small Entity Compliance Guide." This small entity compliance guide applies to over-the-counter (OTC) internal analgesic, antipyretic, and antirheumatic (IAAA) drug products that contain acetaminophen or nonsteroidal anti-inflammatory drug ingredients (NSAIDs). The labeling of those products must include specific warnings about the risks of liver injury when using acetaminophen, and stomach bleeding when using nonsteroidal NSAIDs, as well as related information appearing on the principal display panel. Manufacturers must be in compliance with the rule beginning on April 29, 2010.

This guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the agency's current thinking on organ-specific labeling requirements for OTC IAAA drug products. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) either electronic or written comments regarding this document. It is only necessary to send one set of comments. It is no longer necessary to send two copies of mailed comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

Draft Revised Guidance for Industry on Residual Solvents in New Veterinary Medicinal Products, Active Substances and Excipients (Revision) VICH GL18(R); Request for Comments; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability for comments of a draft revised guidance for industry (#100) entitled "Residual Solvents in New Veterinary Medicinal Products, Active Substances and Excipients (Revision) VICH GL18(R)." This draft revised guidance, which updates a final guidance on the same topic for which a notice of availability was published in the **Federal Register** of May 22, 2001 (66 FR 28182) (the 2001 final guidance), has been developed for veterinary use by the International Cooperation on Harmonisation of Technical Requirements for Registration of Veterinary Medicinal Products (VICH). The guidance is intended to recommend acceptable amounts of residual solvents in new animal drugs (referred to as pharmaceuticals or veterinary medicinal products in this guidance) for the safety of the target animal as well as for the safety of human consumers of products derived from treated food producing animals. It is intended to assist in developing new animal drug applications (referred to as marketing applications in this guidance) submitted
