B. Changes Proposed

HUD is proposing several changes to the HUD-50058 Family Report. HUD is also proposing necessary corresponding changes to the HUD-50058 MTW and HUD-50058 MTW Expansion Reports for consistency, along with a few minor revisions. This data will be used to understand demographic, family profile, income, and housing information. There are several data elements that have been changed, removed, or added from their original content in recognition of rulemakings, policy changes, and current equity principles. HUD is also removing the Welfare to Work program references throughout the form since the program no longer exists. HUD does not expect the changes being proposed to impact the burden on respondents. HUD welcomes comments on the proposed changes or additional changes that should be considered when renewing this information collection, especially relevant to burden reduction. One significant change is that HUD will be moving many of the codes from the form itself and placing them in the instruction booklet to ease the use of the form and allow for non-significant future updates.

HUD-50058 Forms: The following provides a general overview of the changes that HUD is considering:

Section 1: Agency

HUD proposes to update the program types and add the unit real estate ID number to this section.

Section 2: Action

HUD proposes to update the codes for special programs and type of actions. For the type of action codes, HUD is proposing to remove the “Historical Adjustment” code, and add codes for PBV Transfer to Tenant-Based Voucher

and two action types that will allow PHAs to record changes when the family will not receive an interim income reexamination due to Housing Opportunity Through Modernization Act of 2016, Public Law 114-201, (HOTMA) rulemaking—Household Composition Change Only; and Other Change, Non-Income Threshold. In addition, HUD plans to change the FSS participation question to a Supportive Service program participation question to align with the changes in Section 17. HUD is also proposing to add questions to list the primary reason for a family’s end of participation, similar to the current HUD-50058 MTW Expansion, but add additional Tenant Initiated code and Nonpayment of Rent as a code. Lastly, HUD plans to add a question on reasons for a family’s interim reexamination (already on the HUD-50058 MTW Expansion); the type of HCV voucher issued, if applicable; and a date a participant vacated an HCV unit, if applicable. HUD requests comments on whether the codes proposed and currently used in these sections represent the best code options for PHAs when completing the Form 50058 and whether new or changes to existing codes should be considered.

Section 3: Household

HUD is considering changing the Alien Registration number to provide alternatively for a USCIS Number or USCIS case number field. HUD requests comments on whether such a change would be appropriate for collecting similar information. In addition, HUD is considering updating the field for Sex to Gender and allow for inclusion of X-Non-Binary/Transgender, NR-No Response/Prefer not to answer, and the option to pick more than one response. HUD recognizes that some PHAs have policies that use this field response to

determine bedroom sizes and other PHAs have State requirements to allow other such gender designations. Therefore, HUD requests specific comment on what barriers PHAs might face if HUD makes these changes and what guidance would be helpful for PHAs if HUD does implement this change.

HUD is also considering, in response to Executive Order 14075, *Advancing Equality for Lesbian, Gay, Bisexual, Transgender, Queer, and Intersex Individuals*, requesting information about a household member’s Sexual Orientation. HUD requests comments on whether this field should be added, if added should it be limited to specific household members (e.g., adult members or head of household), and whether the categories are accurate. HUD is considering the following categories: Straight/Heterosexual, Gay, Lesbian, Bisexual, Other, and No Response/Prefer not to answer. HUD also requests specific comments on what guidance would be helpful if HUD does implement this change to ensure accuracy in collecting and maintaining this information.

Lastly, HUD is proposing to change the Race question to include a new code “Other” and considering adding to the Disability question a new code “No Response.”

Section 4: Background at Admission

HUD proposes to include new lines to include a date when the family was selected from the waiting list; if the family was formerly homeless; if the family transitioned out of an institutional setting; and whether there was a special non-waiting list admission.

Section 5: Unit to be Occupied on Effective Date of Action

HUD proposes to add an urbanization code to accommodate Puerto Rican addresses; provide for the type of accessible unit identified by the PHA; and include whether the last inspection passed by the unit was an alternative inspection.

Section 6: Assets

HUD proposes to update this section to delineate actual income from imputed income for each family member consistent with HUD's HOTMA rulemaking. HUD will also amend the formula associate with the asset to reflect the HOTMA changes.

Section 8: Expected Income per Year

HUD proposes to revise this section heading to "Deductions and Allowances." HUD would also include a new question for families to indicate if a family is eligible for a medical hardship expense, childcare hardship expense or both, consistent with HUD's HOTMA rulemaking. In addition, HUD would add questions required to be supplied by the PHA to help determine if a family is subject to HOTMA's public housing over-income rule: what the applicable over-income limit for families of the application's size is; if the family is over-income; and the date the over-income family began the 24 consecutive month grace period.

Section 10: Public Housing and Turnkey III

HUD proposes to revise Section 10 heading to remove "and Turnkey III." HUD also proposes to remove the income-based ceiling rent question and replace the "income-based ceiling rent" reference with "flat rent."

Section 11: Section 8: Project Based Certificates and Vouchers

HUD proposes to revise Section 11 heading to remove reference to "Certificates" and add a question to include the HAP Contract ID Number, as assigned by the PBV HAP Contract Collection module in the Housing Information Portal (HIP).

Section 12: Housing Choice Vouchers: Tenant Based Vouchers

HUD proposes to remove the question about if the family qualifies as "Hard to House." HUD also proposes to add items requesting information on whether the family received mobility-related services; if a security deposit was paid by the PHA on behalf of the family; and if the family received a higher payment standard as reasonable accommodation. In addition, HUD

proposes to add from the HUD-50058 MTW Expansion the questions about additional Payments, not HAP Payments, for tenant-based voucher family and financial incentives for property owners.

Section 17: Family Self-Sufficiency (FSS)/Welfare to Work (WtW) Voucher Addendum

HUD proposes to revise Section 17 heading to read "Supportive Services Programs." The section removes the Welfare to Work voucher questions, but provides information on effective date, employment, and services for other supportive services programs, such as ROSS and Jobs Plus. There are also minor amendments to list of benefits a participating family receives, and the services needed by/provided to participating families. HUD also plans to remove the questions about who provides the services. HUD proposes to remove the question about whether the family received a selection preference because of a FSS related service program, given such preference is listed elsewhere in the form. HUD also proposes to add options to the question of why a participant exited the FSS program, to conform with the FSS Final Rule.

HUD-50058 MTW and HUD-50058 MTW Expansion Form: HUD is proposing changes primarily to this form to conform with the changes mentioned above and to comply with HOTMA. HUD also proposes to: remove the date of admission to the MTW program because it was unnecessary; add in a question on the total homeownership assistance payment (HAP); and to remove reference to "Local, Non-Traditional Assistance."

BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7077-N-03]

Privacy Act of 1974; System of Records

AGENCY: Office of Administration, HUD.

ACTION: Notice of a modified system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended, the Department of Housing and Urban Development, gives notice of a proposed revision of an existing Privacy Act system of records. The system of records is being updated in support of a follow-up information collection with the participants of the Homeless Families Impact Study (now called the Family Options Study). The overall goal of the Family Options Study is to determine which housing and service intervention works best to promote housing stability, family preservation, and family well-being, and self-sufficiency for homeless families with children. The new information collected will be added to the existing Homeless Families Impact Study Data Files. The Department proposes to expand the data collected under the previous study to capture additional data to determine the effects that housing and service interventions has had on the young children who are part of the sample. Refer to the "Categories of Records" section to identify new record types. Additionally, this Notice updates the routine uses of the data collected. This notice supersedes the previously published notice (February 26, 2014).

DATES: Comments will be accepted on or before March 10, 2023. This proposed action will be effective immediately upon publication. Routine uses will become effective on the date following the end of the comment period unless comments are received which result in a contrary determination.
