

This collection of information is gathered electronically by the Department for the purpose of determining an institution's eligibility to participate in the Titles III, V, and VII grant programs based on its enrollment of needy students and low average Core Expenses per full-time equivalent student. This collection also allows an institution to request a waiver of certain non-Federal cost-share requirements under the Federal Work-Study Program, Federal Supplemental Educational Opportunity Grant, Student Support Services Program and the Undergraduate International Studies and Foreign Language Program.

The collection is paired with a computational exercise that results in the simultaneous publication of an Eligibility Matrix (EM), a listing of postsecondary institutions potentially eligible to apply for grants in Institutional Service. Criteria derived from applicable legislation and regulations are applied to enrollment and financial data from Department sources to determine the eligibility of each institution for each program. Only those institutions that either do not meet the financial criteria or do not appear in the eligibility matrix need to go through the application process.

The results of the application process are a determination of eligibility for grant application and waiver, and updated information on institutional eligibility which is added to the EM.

This collection is being submitted under the Streamlined Clearance Process for Discretionary Grant Information Collections (1894-0001). Therefore, the 30-day public comment period notice will be the only public comment notice published for this information collection.

Dated: September 22, 2022.

DEPARTMENT OF ENERGY

Notice of Availability of Draft Guidance on Hydrogen and Fuel Cell Program: Guidance for the Clean Hydrogen Production Qualifications

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of availability of draft guidance.

SUMMARY: The U.S. Department of Energy (DOE) announces the notice of availability (NOA) and invites public comment on its Clean Hydrogen Production Standard (CHPS) Draft Guidance. The draft guidance contains the initial proposal for the CHPS, as required by the Infrastructure Investment and Jobs Act (IIJA). Specifically, in the draft guidance, DOE establishes a target for the lifecycle (*i.e.*, well-to-gate) emissions intensity of hydrogen production, based on the IIJA definition of the term “clean hydrogen” and other factors set forth in section 40315(b) of the IIJA.

DATES: Comments regarding this draft guidance must be received on or before October 20, 2022.

ADDRESSES: Comments on this draft guidance document must be provided in writing. Interested parties are to submit comments electronically to Cleanh2standard@ee.doe.gov. Email attachments can be provided as a Microsoft Word (.docx) file or Adobe PDF (.pdf). The complete draft guidance document is located at <https://www.hydrogen.energy.gov/pdfs/clean-hydrogen-production-standard.pdf>.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Karen Dandridge at Cleanh2standard@ee.doe.gov, 202–586–3388.

SUPPLEMENTARY INFORMATION: In the Infrastructure Investment and Jobs Act (Pub. L. 117–58), Congress directed DOE to develop an initial standard for the carbon intensity of clean hydrogen production. Specifically, under section 40315(a) of the Infrastructure Investment and Jobs Act, the Secretary of Energy, in consultation with the Administrator of the Environmental Protection Agency and after taking into account input from industry and other
