SUPPLEMENTARY INFORMATION: Under the PRA of 1995, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VBA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of VBA’s functions, including whether the information will have practical utility; (2) the accuracy of VBA’s estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Authority: 38 U.S.C. 23; 38 U.S.C. 2302.

Title: Application for Chapter 23 Burial Benefits.

OMB Control Number: 2900–NEW.

Type of Review: Request for a NEW control number.

Abstract: A claimant’s eligibility for needs-based pension programs are determined in part by countable family income and certain deductible expenses. Under the authority of 38 U.S.C. Chapter 23 “Burial Benefits,” including 38 U.S.C. 2302, VA uses the information provided on VA Form 21P–530EZ to evaluate respondents’ eligibility for monetary burial benefits, including the burial allowance, plot or internment allowance, and transportation reimbursement. In these situations, VBA uses VA Form 21P–530EZ Application for Burial Benefits, to gather information that is necessary to determine eligibility for income-based benefits and the rate payable;

without this information, determination of eligibility would not be possible. The program office submits 21P–530EZ (Under 38 U.S.C. Chapter 23) as a new form for electronic submissions (automation).

The program office requests removal of the 21P–530EZ (Under 38 U.S.C. Chapter 23), from the 2900–0003 series, as the form should have been submitted as a new form and the name has changed, requiring a separate control number.

Affected Public: Individuals and households.

Estimated Annual Burden: 70,000 hours.

Estimated Average Burden per Respondent: 30 minutes.

Frequency of Response: Once.

Estimated Number of Respondents: 140,000.

By direction of the Secretary.

DEPARTMENT OF VETERANS AFFAIRS

Privacy Act of 1974; System of Records

AGENCY: Veterans Health Administration, Department of Veterans Affairs (VA).

ACTION: Notice of a modified system of records.

SUMMARY: Community Care Referrals and Authorization (CCRA) is an enterprise-wide system used by facility community care staff to generate referrals and authorizations for Veterans receiving care in the community. VA community care staff and non-VA staff use this solution to enhance Veteran access to care. CCRA is an integral component of the community care information technology architecture that allows Veterans to receive care from community providers. CCRA also allows Veterans and non-VA medical facilities to request VA authorization of emergent and urgent Veteran care.

DATES: Comments on this modified system of records must be received no later than 30 days after date of publication in the **Federal Register**. If no public comment is received during the period allowed for comment or unless otherwise published in the **Federal Register** by VA, the modified system of records will become effective a minimum of 30 days after date of publication in the **Federal Register**. If VA receives public comments, VA shall review the comments to determine whether any changes to the notice are necessary.

ADDRESSES: Comments may be submitted through www.Regulations.gov or mailed to VA Privacy Service, 810 Vermont Avenue NW, (005R1A), Washington, DC 20420. Comments should indicate that they are submitted in response to HealthShare Referral Manager (HSRM)—VA (180VA10D). Comments received will be available at regulations.gov for public viewing, inspection or copies.

FOR FURTHER INFORMATION CONTACT: Robert Hassinger, Product Manager, Community Care Referrals and Authorization (CCRA) System, Office of Information and Technology Field Office, 55 Elk Street—3rd Floor, Albany,

NY 12210. Telephone number: (518) 449-0600. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: CCRA is an enterprise-wide solution in support of the Veterans Access, Choice, and Accountability Act of 2014 (Pub. L. 113-146) (“Choice Act”), as amended by the VA Expiring Authorities Act of 2014 (Pub. L. 113-175), to generate referrals and authorizations for Veterans receiving care in the community. VA clinical providers and Non-VA clinical providers will access a cloud-based software system to request and refer clinical care for Veterans with Community Care providers. This solution will enhance Veteran access to care by utilizing a common and modern system to orchestrate the complex business of VA referral management.

The CCRA solution is an integral component of the VA Community Care (CC) Information Technology (IT) architecture, and will track and share health care information and correspondence necessary for Veterans to be seen for appropriate and approved episodes of CC. Additionally, CCRA allows Veterans and non-VA-medical facilities to request VA authorization of emergent and urgent Veteran care. The CCRA solution will allow the VA to move to a process that generates standardized referrals and authorizations, according to clinical and business rules.

The CCRA project provides HealthShare Referral manager by InterSystems as the CCRA solution. HealthShare Referral Manager is a commercial off-the-shelf software product that is hosted in an Amazon Web Services (AWS) FedRAMP High Gov cloud and is planned for enterprise integration with VA systems, both inside and outside of CC.

Two additional Routine Uses are listed in this Modified SORN and are detailed in a later section. These Routine Uses directly relate to the referral process utilized by the CCRA solution.

Title 38 United States Code 7301(a); Title 38 United States Code 1703—Veterans Community Care Program; Veterans Access, Choice, and Accountability Act of 2014 (Pub. L. 113-146).

PURPOSE(S) OF THE SYSTEM:

CCRA is an enterprise-wide system used by community care staff to automatically generate referrals and authorizations for all Veterans receiving care in the community. The system is an integral component of the VA community care information technology (IT) architecture, and allows Veterans to receive care from community providers within the Community Care Network through the Veterans Choice Program. The CCRA system allows these providers to view relevant patient and clinical information from Veterans Information Systems and Technology Architecture (VistA). The exchange of health care information and authorizations enhances VA's ability to ensure that Veterans receive the best health care available to address their medical needs. The CCRA system also enabled the VA to move from what is currently a largely manual process to an automated process that generates standardized referrals and authorizations according to clinical and business rules. The automated process
