DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

[Docket No. TSA-2004-19515]

Intent to Request Renewal From OMB of One Current Public Collection of Information: Air Cargo Security Requirements

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-day Notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), OMB control number 1652-0040, abstracted below that we will submit to the Office of Management and Budget (OMB) for renewal in compliance with the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. This

ICR involves five broad categories of affected populations: airports, passenger aircraft operators, foreign air carriers, indirect air carriers operating under a security program, and all-cargo carriers. The collections of information that make up this ICR are security programs, security threat assessments (STA), known shipper data via the Known Shipper Management System (KSMS), Air Cargo Data Management System (ACDMS), Cargo Reporting Tool for cargo screening reporting, and evidence of compliance recordkeeping. TSA seeks continued OMB approval in order to secure passenger aircraft carrying cargo as authorized in the Aviation and Transportation Security Act.

DATES: Send your comments by April 24, 2012.

ADDRESSES: Comments may be emailed to TSAPRA@dhs.gov or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA-11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6011.

FOR FURTHER INFORMATION CONTACT:

Joanna Johnson at the above address, or by telephone (571) 227-3651.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at www.reginfo.gov. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0040 Air Cargo Security requirements, 49 CFR parts 1540, 1542, 1544, 1546, and 1548. TSA is seeking renewal of an expiring

collection of information. Congress set forth in the Aviation and Transportation Security Act (ATSA), Public Law 107-71, two specific requirements for TSA in the area of air cargo security: (1) To provide for screening of all property, including U.S. mail, cargo, carry-on and checked baggage, and other articles, that will be carried aboard a passenger aircraft; and (2) to establish a system to screen, inspect, report, or otherwise ensure the security of all cargo that is to be transported in all-cargo aircraft as soon as practicable. In the Implementing Recommendations of the 9/11 Commission Act of 2007 (9/11 Act), Public Law 110-53, Congress required that 50 percent of cargo transported on passenger aircraft be screened by February 2009, and 100 percent of such cargo be screened by August 2010. Collection of information associated with the 9/11 Act requirements fall under OMB control number 1652-0053.

While aviation security requirements have greatly reduced the vulnerability of the air cargo system, TSA, in cooperation with industry stakeholders, identified additional gaps in the existing cargo security requirements that must be filled to reduce the likelihood of cargo tampering or unauthorized access to the aircraft. TSA must proceed with this ICR for this program in order to meet the Congressional mandates and maintain current regulations (49 CFR 1542.209, 1544.205, 1546.205, and part 1548) that enable them to accept, screen, and transport air cargo. The uninterrupted collection of this information will allow TSA to continue to ensure implementation of these vital security measures for the protection of the traveling public.

Data Collection

This information collection requires the "regulated entities," which may include passenger and all-cargo aircraft operators, foreign air carriers, and indirect air carriers (IACs), to implement a standard security program or to submit modifications to TSA for approval, and update such programs as necessary. The regulated entities must also collect personal information and submit such information to TSA so that TSA may conduct STAs on individuals with unescorted access to cargo. This includes each individual who is a general partner, officer, or director of an IAC or an applicant to be an IAC, and certain owners of an IAC or an applicant to be an IAC; and any individual who has responsibility for screening cargo under 49 CFR parts 1544, 1546, or 1548. Aircraft operators, foreign air carriers, and IACs must report the volume of accepted and screened cargo transported
