Notice of Lodging of Consent Decree Under the Clean Air Act; the Clean Water Act; the Resource Conservation and Recovery Act; the Emergency Planning and Community Right-To-Know Act; and the Comprehensive Environmental Response, Compensation, and Liability Act

Notice is hereby given that on October 8, 2010, a proposed Consent Decree in *United States and State of Missouri v. The Doe Run Resources Corporation, et al.*, Civil Action 4:10-cv-1895 was lodged with the United States District Court for the Eastern District of Missouri.

In this action the United States and the State of Missouri sought civil penalties and injunctive relief for environmental violations of the Clean Air Act, 42 U.S.C. 7401-7671q; the Missouri Air Conservation Law, Chapter 643, RSMo; the Resource Conservation and Recovery Act, 42 U.S.C. 6901-6992k; the Missouri Hazardous Waste Management Law, §§ 260.350-260.434, RSMo; the Clean Water Act, 33 U.S.C. 1251-1387; the Missouri Clean Water Law, Chapter 644, RSMo; the

Emergency Planning and Community Right-to-Know Act, 42 U.S.C. 11001-11050; and the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9601-9603 at several of the mining, milling, and smelting facilities located in Missouri owned and operated by The Doe Run Resources Corporation, The Doe Run Resources Corporation d/b/a "The Doe Run Company", and The Buick Resource Recycling Facility, LLC ("Defendants"). To resolve the United States' and State's claims the Defendants will pay a civil penalty of \$7 million. The penalty will be paid in a \$3.5 million payment to the United States and a \$1.5 million payment to the state of Missouri, with an additional \$1 million plus interest to be paid to the state each year for the next two years. The settlement also requires Doe Run to establish financial assurance trust funds for the cleanup of the following active or former mining and milling facilities: Brushy Creek, Buick, Fletcher, Sweetwater, Viburnum, and West Fork. Doe Run will also take steps to address RCRA violations at certain facilities; finalize and come into compliance with more stringent Clean Water Act permits at 10 of its facilities, including Herculaneum, Glover, Brushy Creek, Buick Mill, Fletcher, Sweetwater, Viburnum, West Fork, Mine #35 (Casteel), and Buick Resource Recycling; and will spend an estimated \$5.8 million on stream mitigation activities along 8.5 miles of Bee Fork Creek, an impaired waterway near Doe Run's Fletcher mine and mill facility. At four facilities, Buick Mine, Brushy Creek, Fletcher, and Sweetwater, Doe Run will also enclose the lead concentrate handling, loading, and storage areas under negative pressure with emissions routed to a baghouse. The company will also spend \$2 million on community mitigation projects over the next four years.

In addition, instead of installing pollution control technologies needed to reduce sulfur dioxide and lead emissions as required by the Clean Air Act, Doe Run has made a business decision to shut down its lead smelter in Herculaneum, Mo., by Dec. 31, 2013. The company will also provide an initial \$8.14 million in financial assurance to guarantee cleanup work at the Herculaneum facility.

The Department of Justice will receive for a period of 30 days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or
