FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than February 19, 2010.

Proposed Project

Prevention Research Centers Program National Evaluation Reporting System—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Prevention Research Centers (PRC) Program was established by Congress through the Health Promotion and Disease Amendments of 1984. CDC manages the PRC program and currently provides funding to PRC grantees that are housed within schools of public health, medicine or osteopathy. Awards are made for five years and may be renewed through a competitive application process. PRCs conduct outcomes-oriented health promotion and disease prevention research on a broad range of topics using a multi-disciplinary and community-based approach. Research projects involve State and local health departments, health care providers, universities, community partners, and other organizations. PRCs collaborate with external partners to assess community health priorities; identify research priorities; set research agendas; conduct research projects and related activities such as training and technical assistance; and disseminate research results to public health practitioners, researchers, and the general public. Each PRC receives an approximately equal amount of funding from CDC to establish its core capacity and support a core research project as well as training and evaluation activities. Research foci reflect each PRC's area of expertise and the needs of the community. Health disparities and goals outlined in *Healthy People 2010* are a particular emphasis for most PRC core research.

CDC is currently approved to collect progress and performance information from PRCs through the PRC Information System (IS), a Web-based application (OMB #0920-0650, exp. 8/31/2010). The IS was developed to organize programmatic information through work plans and progress reports and to assist in tracking progress toward and achievement of the PRC performance indicators.
