

amount of continued maintenance dredging.

- Do not build any new dikes, weirs, or revetment going forward but maintain the existing structures to perform their intended functions. Maintenance dredging would continue into the future at roughly the current level.

3. *Scoping.* Scoping is the process for determining the range of alternatives and significant issues to be analyzed in detail in the SEIS. Public involvement is an integral part of the scoping process. All parties believed to have an interest in the analysis, including affected federal, state, and local agencies, and affected Federally Recognized Tribes will be included in the SEIS scoping process. Letters will be sent to all interested parties requesting their input on alternatives and issues to be evaluated. The letters will also notify interested parties of public scoping meetings that will be held in the local area. Notices will also be sent to local news media. All interested parties are invited to comment at this time, and anyone interested in the SEIS should request to be included in the mailing list.

Public scoping meetings will be held in early 2014. The meetings will be held in the vicinity of St. Louis and Cape Girardeau, Missouri. Additional meetings could be held, depending upon interest and if it is determined that further public coordination is warranted.

4. *Significant Issues.* The significant new information that has been developed since completion of the original EIS will be evaluated and the EIS will be supplemented pursuant to this evaluation. Resources and issues which could reasonably be expected to be analyzed in the SEIS at this time include aquatic habitat, navigation, river stages, fish and wildlife resources, water quality, air quality, threatened and endangered species, commercial and recreational fisheries, historic and cultural resources, and socioeconomic resources.

5. *Environmental Consultation and Review.* The U.S. Fish and Wildlife Service (USFWS) will be assisting in the documentation of existing conditions and assessment of the effects of project alternatives through Fish and Wildlife Coordination Act consultation procedures. The USFWS will provide a Fish and Wildlife Coordination Act Report. Consultation will be accomplished with the USFWS concerning threatened and endangered species and their critical habitat. USACE will also work closely throughout the SEIS process with other resource agency partners including the

Missouri Department of Conservation and Illinois Department of Natural Resources. The draft SEIS or a notice of its availability will be distributed to all interested agencies, organizations, and individuals.

6. *Estimated Date of Availability.* The earliest that the draft SEIS would be available for public review would be in the fall of 2015. The draft SEIS or a notice of availability will be distributed to all interested agencies, organizations, and individuals.

Title of Collection: Race to the Top—District Annual Performance Report.

OMB Control Number: 1894-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 21.

Total Estimated Number of Annual Burden Hours: 1,113.

Abstract: On May 22, 2012, the Secretary announced the Race to the Top District program, which is designed to build on the momentum of other Race to the Top competitions by encouraging bold, innovative reform at the local level. In FY 2012, the Department awarded approximately \$383 million to 16 Race to the Top District grantees representing 55 local educational agencies (LEAs), with grants ranging from \$10 to \$40 million. Applications for the FY 2013 competition are currently under peer review and the Department plans to make awards in December 2013 for a total of approximately \$120 million. FY 2013 grantees will utilize the same Annual Performance Report (APR) template as

FY 2012 Race to the Top District grantees.

In order to fulfill our responsibilities for programmatic oversight and public reporting, the Department has developed a Race to the Top District Annual Performance Report (APR) that is tied directly to the FY 2012 and FY 2013 Race to the Top District selection criteria and priorities previously established and published in the **Federal Register**. The report is grounded in the key performance targets included in grantees approved Race to the Top District plans. Grantees will be required to report on their progress improving student outcomes and implementing personalized learning environments, including narrative sections on progress and key performance indicators. Each grantee district will submit a Race to the Top District APR on an annual basis. The first report for the 16 FY 2012 districts is anticipated to be collected during spring 2014 with FY 2013 grantees reporting for the first time in spring 2015. Districts will submit the narrative elements and quantitative measures via an online data collection platform that will then be converted into a transparent public display.
