Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program promotes academic achievement and improves results for children with disabilities by supporting technical assistance, model demonstration projects, dissemination of useful information, and implementation activities that are supported by scientifically based research. The purposes of the Personnel Development to Improve Services and Results for Children with Disabilities program are to (1) help address State-identified

needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with children with disabilities; and (2) ensure that those personnel have the skills and knowledge—derived from practices that have been determined through research and experience to be successful—that are needed to serve those children.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute (see sections 662(b)(2)(C), 663, and 681(d) of IDEA).

Absolute Priority: For FY 2005 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is: *National Technical Assistance and Dissemination Center for Children who are Deaf-Blind*.

Background

IDEA requires that each child with a disability be provided appropriate special education and related services that meet the child's individual educational needs. For children who are deaf and blind to receive such services, intensive technical assistance is needed to enable SEAs and LEAs to appropriately address the special needs of these children. In addition, given the low-incidence nature of the deaf-blind population, many early intervention programs and educational agencies lack personnel with the training or experience to serve the unique needs of these children.

Priority

This priority supports one center (the Center) to provide specialized technical assistance, training, dissemination, and informational services to States, families, and agencies and organizations that are responsible for the provision of early intervention, special education, and related and transitional services for children through age 26 who are deaf-blind. This priority emphasizes building capacity and the implementation of systems interventions so that quality outcomes can be achieved for all children who are deaf-blind. Under this priority, the Center's activities must address gaps in the knowledge of service providers, including knowledge of evidence-based practices to improve outcomes for the deaf-blind population. The Center must accomplish this mission through a combination of activities in the following areas: (1) Technical assistance, (2) information and dissemination, and (3) personnel training.

Activity Area (1): The Center's technical assistance activities must

include, but are not limited to, the following:

(a) Identifying specific project goals, objectives, and activities for providing an array of services to States, families, and agencies and organizations that are responsible for providing services to children who are deaf-blind.

(b) Assisting SEAs and LEAs, including those receiving funds under the Projects for Children who are Deaf-Blind competition—CFDA 84.326C (State Projects), and other related agencies and organizations, in developing and implementing systemic-change goals supported by available evidence-based research for children with deaf-blindness.

(c) Providing assistance to State Projects and agencies to increase the States' capacities to improve early intervention, special education, and related and transitional services to improve outcomes for children who are deaf-blind and their families.

(d) Facilitating activities and enhancing collaborative partnerships that build the capacity of children who are deaf-blind and their families for advocacy, empowerment, and increased knowledge.

(e) Communicating, collaborating, and forming partnerships as appropriate, and as directed by the Office of Special Education Programs (OSEP), with others to improve results for children who are deaf-blind and their families.

(f) Gathering, maintaining, and analyzing demographic information of children who are deaf-blind for the purpose of developing project priorities based on data documenting the needs of these children.

(g) Convening topical meetings, at the request of OSEP, to study issues and develop recommendations for addressing challenges related to issues in the field of deaf-blindness.

(h) Assisting State Projects, agencies, and organizations to strengthen collaborative partnerships with parents and families, and developing strategies to more effectively serve families representing different cultural, ethnic, and linguistic backgrounds.

(i) Assisting State Projects in identifying effective evaluation strategies for collecting and analyzing data to improve results for children.

(j) Promoting the improvement of student achievement in language arts, science, and math for children who are deaf-blind.

Activity Area (2): The Center's information and dissemination activities must include, but are not limited to, the following:

(a) Identifying, collecting, organizing, and disseminating information related

to deaf-blindness, including research-based and other practices that are supported by evidence-based research that demonstrates their effectiveness in improving results for children who are deaf-blind.

(b) Responding to information requests from professionals, parents, students, institutions of higher education, and others, and developing and implementing appropriate strategies for disseminating information to under-represented groups, including those with limited English proficiency.

(c) Developing a broad, coordinated network of professionals, parents, related organizations and associations, mass media, and others for promoting awareness of issues related to deaf-blindness. This may include using the Internet and other cost-effective methods to share information with the international deaf-blindness community.

(d) Expanding and broadening the use of current informational resources by developing materials that synthesize evidence-based research, best practices, and emerging knowledge into easily understandable products with accessible formats.

(e) Developing and disseminating materials and products to supplement technical assistance and training, including synthesized research findings on relevant topics such as communication, assessments, accommodations, alternate assessments, and data analysis.

(f) Maintaining a Web site, with a dedicated URL, on which all ongoing, and completed products, as well as related information, are available in a format that meets a government or industry-recognized standard for accessibility. The Web site also must contain other features that facilitate communication and links to other Web sites that are appropriate and helpful to users.

Activity Area (3): The Center's personnel training activities must consist of activities authorized under section 662(b)(2)(C) of IDEA, including, but not limited to, the following:

(a) Implementing and maintaining an assessment of the needs of individual States and the overall needs of States to determine the array, type, and intensity of personnel training to be provided.

(b) Providing personnel training that focuses on the implementation of IDEA specific to children who are deaf-blind and their families.

(c) Providing personnel training that focuses on the implementation of research-based, effective practices that will result in improved capacity of SEAs and LEAs to provide appropriate

assessment, planning, placement, and transitional services.

(d) Assisting personnel training programs to work collaboratively in order to assist a greater number of teachers and paraprofessionals. This includes facilitating career development activities by promoting internships, mentorships, and other strategies to address the shortage of leadership and highly qualified personnel in the field of deaf-blindness.

General Activities. The Center also must:

(a) Annually, provide OSEP with a report analyzing policies and emerging issues that are of significant national concern in the field of deaf-blindness. This report must include a narrative description that reflects important demographic characteristics, data, and trends;

(b) Annually, establish and implement a comprehensive system of evaluation to determine the impact of the Center's activities on children with deaf-blindness, identify relevant achievements, and identify strategies for improvement;

(c) Collaborate with the OSEP Project Officer in planning and conducting the annual Project Directors' Meeting in Washington, DC, and budget funds for that purpose; and

(d) Establish and maintain an advisory committee to assist in promoting project activities. The committee must include at least one individual with deaf-blindness, one parent of a child with deaf-blindness, one representative of an SEA, and at least three professionals with training and experience in serving children with deaf-blindness.

Fourth and Fifth Years of the Project

In deciding whether to continue funding the Center for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition:

(a) The recommendation of a review team consisting of experts selected by the Secretary, which review will be conducted during the last half of the project's second year in Washington, DC. Projects must budget for travel expenses associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center.

(c) The degree to which the project promotes best practices in the area of services to children who are deaf-blind.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553), the Department

generally offers interested parties the opportunity to comment on a proposed priority. However, section 681(d) of IDEA makes the public comment requirements under the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1462(b)(2)(C), 1463, and 1481(d).

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to IHEs only.

DEPARTMENT OF EDUCATION

Office of Special Education and Rehabilitative Services, Overview Information, Vocational Rehabilitation Services, Projects for American Indians With Disabilities; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2006

Catalog of Federal Domestic Assistance (CFDA) Number: 84.250B.

Dates:

Applications Available: December 27, 2005.

Deadline for Transmittal of Applications: April 21, 2005.

Eligible Applicants: The governing bodies of Indian tribes (and consortia of those governing bodies) located on Federal and State reservations.

Estimated Available Funds: The Administration has plans to set aside \$33,024,000 for the Vocational Rehabilitation Services Projects for American Indians With Disabilities program for FY 2006, of which we intend to use an estimated \$2,700,000 for this competition. The actual level of funding, if any, depends on final congressional action. However, we are inviting applications to allow enough time to complete the grant process if Congress appropriates funds for this program.

Estimated Median Amount of Awards: The estimated median amount of an award is \$500,000, which means that one-half of the awards will be over \$500,000 and one-half of the awards will be under \$500,000, with the majority of awards in the range of approximately \$350,000 to \$575,000.

Maximum Award: There is no maximum award amount for the first project year. However, when preparing your submission, applicants should be aware that we anticipate an increase of about three percent in the award amounts for this program compared to FY 2005.

In addition, the Secretary may limit any proposed increases in funding for project years two through five to the annual estimated percentage change in the consumer price index for all urban consumers (CPIU). The current estimated percentage increase in the CPIU over the prior year for project years two through five is as follows: FY 2007—2.9 percent, FY 2008—2.4 percent, FY 2009—2.4 percent, and FY 2010—2.4 percent.

Estimated Number of Awards: 5.

Note: The Department is not bound by any estimates in this notice.
