Dentek.com, D/B/A Nsequence Center for Advanced Dentistry; Reno, NV; Notice of Affirmative Determination Regarding Application for Reconsideration

By application dated July 16, 2010, a petitioner requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on June 22, 2010. The Department's Notice of Determination was published in the **Federal Register** on July 7, 2010 (75 FR 39049). Workers are engaged in employment related to the production of dental prosthetics.

The initial determination was based on the findings that worker separations are not attributable to increased imports of articles like or directly competitive with dental prosthetics or a shift/acquisition of these articles to a foreign country by the workers' firm.

In the request for reconsideration, the petitioner provided additional information regarding company imports and operations.

The Department has carefully reviewed the request for reconsideration and the existing record and has determined that the Department will conduct further investigation to determine if the workers meet the

eligibility requirements of the Trade Act of 1974, as amended.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Progressive Furniture, Inc., Including On-Site Leased Workers From Onin Staffing, a Subsidiary of Sauder Furniture, Claremont, NC; Notice of Affirmative Determination Regarding Application for Reconsideration

On July 19, 2010, the Department issued a determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The Department's Notice of Determination was published in the **Federal Register** on August 6, 2010 (75 FR 47635).

The initial investigation resulted in a negative determination based on the findings that there was no increase in imports or shift to/acquisition from a foreign country of decommissioning services by the workers' firm, and that the workers' firm did not produce an article or supply a service that was used by a firm with workers eligible to apply for TAA in the production of an article or supply of a service that was the basis for TAA-certification.

Subsequent to the issuance of the negative determination, the Department was informed of a mistake in fact in the case at hand.

Based on this new information, the Department has determined that it is appropriate for the Department to conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974, as amended.

Conclusion

After careful review, I conclude that a reconsideration of the U.S.
