

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Northwest Region Federal Fisheries Permits.

Form Number(s): None.

OMB Approval Number: 0648-0203.

Type of Request: Regular submission.

Burden Hours: 595.

Number of Respondents: 708.

Average Hours Per Response: 20 minutes for a limited entry permit renewal or transfer; 60 minutes for an experimental fishery permit application; 60 minutes for an experimental fishery permit summary report; 10 minutes for an experimental fishery data report; and 2 minutes for an experimental fishery call-in notification prior to a fishing trip.

Needs and Uses: Two data collections dealing with Federal fishery permits affect participants in the groundfish fishery off Washington, Oregon, and California (WOC). The two data collections involve: (1) Exempted fishing; and (2) limited entry permits for commercial fishermen. Exempted (experimental) fishing permits are issued to applicants for fishing activities that would otherwise be prohibited. The information provided by applications allows NMFS to evaluate the consequences of the exempted fishing activity and weigh the benefits and costs. Permittees are required to file reports on the results of the experiments and in some cases individual vessels are required to provide minimal data reports. There is also a requirement for a call-in notification prior to a fishing trip. This information allows NOAA Fisheries to evaluate techniques used and decide if management regulations should be changed.

A Federal permit is also required to commercially catch groundfish, and permits are endorsed for one or more of three gear types (trawl, longline, and fish pot). Participation in the fishery and access to permits have been limited as a way of controlling the overall fleet harvest capacity. Limited entry permits must be renewed annually and are transferable. Permit owners must fill out renewal forms annually and must fill out transfer forms, as needed.

Affected Public: Business or other for-profit organizations.

Frequency: Annually, on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of

Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Dated: May 21, 2003.

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: American Fisheries Act:

Recordkeeping and Reporting Requirements.

Form Number(s): None.

OMB Approval Number: 0648-0401.

Type of Request: Regular submission.

Burden Hours: 1,024.

Number of Respondents: 26.

Average Hours Per Response: 20 hours for a cooperative preliminary report; 8 hours for a cooperative final report; 30 minutes for a non-member vessel contract fishing application; 35 minutes for a shoreside processor electronic logbook (SPELR); 5 minutes for a cooperative pollock catch report; and 5 minutes for a designation of agent for service of process.

Needs and Uses: On October 21, 1998, the President signed into law the American Fisheries Act (AFA), which imposed major structural changes on the Bering Sea and Aleutian Islands Management Area (BSAI) pollock fishery. The purpose of the AFA was to tighten U.S. ownership standards that had been exploited under the Antireflagging Act, and to provide the BSAI pollock fleet with the opportunity to conduct their fishery in a more rational manner while protecting non-AFA participants in the other fisheries. The AFA also affected the management of other groundfish, crab, and scallop

fisheries off Alaska. Much of the monitoring and enforcement burden is placed on participating AFA cooperatives and their members, which allows NOAA to manage the pollock fishery more precisely. Monitoring their own catch, vessels are able to individually (and in aggregate) come very close to harvesting exactly the amount of pollock they were allocated.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion, annually, recordkeeping.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Gulf of Mexico Red Snapper Individual Fishing Quota Referendum Data Collection.

Form Number(s): None.

OMB Approval Number: None.

Type of Request: Regular submission.

Burden Hours: 102.

Number of Respondents: 200.

Average Hours Per Response: 10 minutes for an initial referendum response; 20 minutes for a subsequent referendum response; and 10 minutes

for information regarding vessel captains.

Needs and Uses: NOAA National Marine Fisheries Service (NMFS) needs this data collection to properly implement the referendum procedures specified in the Magnuson-Stevens Fishery Conservation and Management Act (Act). The Act provides that on or after October 1, 2000, the Gulf of Mexico Fishery Management Council may prepare and submit a fishery management plan, plan amendment, or regulation for the Gulf of Mexico commercial red snapper fishery that creates an individual fishing quota (IFQ) program or that authorizes the consolidation of licenses, permits, or endorsements that result in different trip limits for vessels in the same class. These actions can only take place if the preparation of such plan, amendment, or regulation is approved in a referendum, and only if the submission to the Secretary of such plan, amendment, or regulation is approved in a subsequent referendum. NMFS also needs to gather data about vessel captains, who are eligible to participate in the referenda, from permit holders with red snapper endorsements.

Affected Public: Business or other for-profit organizations, individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

Notice of Initiation of Antidumping Duty Investigations: Certain Color Television Receivers From Malaysia and the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Initiation of antidumping duty investigations.

EFFECTIVE DATE: May 29, 2003.

FOR FURTHER INFORMATION CONTACT: Irina Itkin at (202) 482-0656, or Michael Strollo at (202) 482-0629, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Initiation of Investigations

The Petitions

On May 2, 2003, the Department of Commerce ("the Department") received petitions filed in proper form by Five Rivers Electronic Innovations, LLC ("Five Rivers"), the International Brotherhood of Electrical Workers ("IBEW"), and the Industrial Division of the Communications Workers of America ("IUE-CWA") (collectively "the petitioners").

In accordance with section 732(b)(1) of the Tariff Act of 1930 ("the Act"), the petitioners allege that imports of color television receivers ("CTVs") from Malaysia and the People's Republic of China ("the PRC"), are, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that imports from Malaysia and the PRC, are materially injuring, or are threatening to materially injure, an industry in the United States.

The Department finds that the petitioners filed these petitions on behalf of the domestic industry because they are interested parties as defined in sections 771(9)(C) and 771(9)(D) of the Act and they have demonstrated sufficient industry support with respect to each of the antidumping investigations that they are requesting the Department to initiate. *See infra*, "Determination of Industry Support for the Petitions."

Scope of Investigations

For purposes of these investigations, the term "certain color television receivers" includes complete and incomplete direct-view or projection-type cathode-ray tube color television

receivers, with a video display diagonal exceeding 52 centimeters, whether or not combined with video recording or reproducing apparatus, which are capable of receiving a broadcast television signal and producing a video image. Specifically excluded from these investigations are computer monitors or other video display devices that are not capable of receiving a broadcast television signal.

The color television receivers subject to these investigations are currently classifiable under subheadings 8528.12.2800, 8528.12.3250, 8528.12.3290, 8528.12.4000, 8528.12.5600, 8528.12.3600, 8528.12.4400, 8528.12.4800, and 8528.12.5200 of the *Harmonized Tariff Schedule of the United States* ("HTSUS"). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of the merchandise under investigation is dispositive.

As discussed in the preamble to the Department's regulations (*Antidumping Duties; Countervailing Duties; Final Rule*, 62 FR 27296, 27323 (May 19, 1997)), we are setting aside a period for parties to raise issues regarding product coverage. The Department encourages all parties to submit such comments within 20 calendar days of publication of this notice. Comments should be addressed to Import Administration's Central Records Unit, Room 1870, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230. The period of scope consultations is intended to provide the Department with ample opportunity to consider all comments and consult with parties prior to the issuance of the preliminary determinations.

Determination of Industry Support for the Petitions

Section 732(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that the Department's industry support determination, which is to be made before the initiation of the investigation, be based on whether a minimum percentage of the relevant industry supports the petition. A petition meets this requirement if the domestic producers or workers who support the petition account for: (1) At least 25 percent of the total production of the domestic like product; and (2) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the
