ICR Status: This ICR is scheduled to expire on August 31, 2008. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Under the authority of sections 3004, 3005, 3008 and 3010 of the Resource Conservation and Recovery Act (RCRA), as amended, the U.S. Environmental Protection Agency is finalizing revisions to the RCRA hazardous waste permitting program to allow a "standardized permit." The standardized permit is available to facilities that generate hazardous waste and routinely manage the waste on-site in non-thermal units such as tanks, containers, and containment buildings. This ICR presents a comprehensive description of the information collection requirements for owners and operators submitting applications for a standardized permit or a standardized permit modification.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 82 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information;

and transmit or otherwise disclose the information.

Respondents/Affected Entities: Business or other for-profit.

Estimated Number of Respondents: 866.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 15,045.

Estimated Total Annual Cost: \$1,203,688, includes \$592,029 for labor and \$611,659 annualized capital or O&M costs.

Changes in the Estimates: There is an increase of 608 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This slight increase is due to an increase in the annual number of responses from 175 to 184.

Dated: August 14, 2008.

Director, Collection Strategies Division.
