Determinations; Notice of Negative  
Determinations On Reconsideration  
under the Trade Adjustment  
Assistance Extension Act of 2011  
Regarding Eligibility To Apply for  
Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974, as amended (19 U.S.C. 2273) (Act) the Department of Labor (Department) herein presents summaries of negative determinations on reconsideration regarding eligibility to apply for Trade Adjustment Assistance for workers by case (TA-W-) number regarding negative determinations issued during the period of February 13, 2011 through October 21, 2011. Notices of negative determinations were published in the **Federal Register** and on the Department's Web site, as required by Section 221 of the Act (19 U.S.C. 2271). As required by the Trade Adjustment Assistance Extension Act of 2011 (TAAEA), all petitions that were denied during this time period were automatically reopened. The reconsideration investigation revealed that the following workers groups have not met the certification criteria under the provisions of TAAEA.

After careful review of the additional facts obtained, the following negative determinations on reconsideration have been issued.

TA-W-80,112; STK, LLC, Lemont  
Furnace, PA.

TA-W-80,112A; STK, Inc, Coconut  
Creek, FL.

TA-W-80,430; Product Dynamics Ltd,

**MILLENNIUM CHALLENGE  
CORPORATION**

[MCC FR 12-01]

**Notice of Entering Into a Compact With  
the Republic of Cape Verde**

**AGENCY:** Millennium Challenge  
Corporation.

**ACTION:** Notice.

**SUMMARY:** In accordance with Section 610(b)(2) of the Millennium Challenge Act of 2003 (Pub. L. 108-199, Division D), the Millennium Challenge Corporation (MCC) is publishing a summary and the complete text of the Millennium Challenge Compact between the United States of America, acting through the Millennium Challenge Corporation, and the Republic of Cape Verde. Representatives of the United States Government and the Republic of Cape Verde executed the Compact documents on February 10, 2012.

Dated: February 14, 2012.

**Melvin F. Williams, Jr.,**  
*VP/General Counsel and Corporate Secretary,  
Millennium Challenge Corporation.*

**Summary of Millennium Challenge  
Compact with the Republic of Cape  
Verde**

The five-year, \$66.2 million compact with the Government of Cape Verde (the "GoCV") is aimed at reducing poverty through economic growth (the "Compact"). To this end, the Compact's two projects are intended to increase household incomes in project areas by reforming the water and sanitation and land management sectors, both critical constraints to economic growth.

**1. Project Overview and Activity  
Descriptions**

To advance the goal of reducing poverty through economic growth, the Compact will fund two projects.

The \$41.1 million *Water, Sanitation, and Hygiene Project* is designed to establish a financially sound, transparent, and accountable institutional basis for the delivery of water and sanitation services to Cape Verdean households and businesses. The \$17.3 million *Land Management for Investment Project* is designed to reduce the time required to establish secure property rights and to provide conclusive land information in areas of near-term high development potential in Cape Verde.

Water, Sanitation and Hygiene (WASH) Project

Cape Verde is an extremely water-scarce country, and relies heavily on desalinization of water, which is an expensive and energy-intensive process. The WASH sector is characterized by relatively poor levels of service, including intermittent water supply. In addition, domestic water consumption in Cape Verde is, at approximately 35 liters per day, half that of a low-income peer group of countries, and barely above subsistence levels; not surprising given that Cape Verde has the highest water tariff in Africa and among the highest in the world. The poor, and particularly female-headed households, are especially vulnerable as only 9% of poor households have access to the networked public water supply network. Additionally, Cape Verde is not on track to meet its Millennium Development Goal for sanitation. Low levels of water supply, combined with a population in which over 50% is without any access to improved sanitation services, results in significant public health problems, including diarrhea, malaria and dengue.

The GoCV has worked closely with MCC to develop an ambitious performance-based project. Through extensive consultation with civil society, private sector and government stakeholders, as well as MCC technical assistance, the Cape Verdean team
