SUPPLEMENTARY INFORMATION: On April 23, 2013, EPA received a petition from the U.S. Defense Logistics Agency (DLA), a component of the United States Department of Defense (DoD), to import foreign-manufactured PCBs that DoD currently owns in Japan for disposal in the United States. In response to that petition, on April 2, 2014, EPA issued a direct final rule (79 FR 18471) and parallel proposed rule (79 FR 18497), to grant the request and provided a 30-day public comment period. During the comment period, EPA received an adverse comment as well as a request to hold an informal hearing.

Withdrawal of Direct Final Rule: Because EPA received adverse comment, as well as a request to hold an informal hearing, we are withdrawing the direct final rule. We stated in the direct final rule that if we received adverse comment on the proposed rule by May 2, 2014, the direct final rule would not take effect and we would publish a timely withdrawal in the **Federal Register**. We subsequently received adverse comment on that direct

final rule, which will be considered as part of the parallel proposed rule.

Notice of Informal Hearing: EPA is granting a request from a member of the public to hold an informal hearing to receive oral comments on the proposed regulation. The procedures for rulemaking under section 6 of the Toxic Substances Control Act (TSCA) are found at 40 CFR part 750. Specific procedures for manufacturing (import) exemptions are identified in 40 CFR part 750, subpart B, and the procedures for participation in and the conduct of informal hearings are found at 40 CFR 750.18-750.20. Please see EPA's Web site at <http://www.epa.gov/epawaste/hazard/tsd/pCBS/dlapcb.htm> for the specific procedures for the informal hearing and the most current information on the hearing timeline.

SUPPLEMENTARY INFORMATION: On Friday, January 24, 2014, FEMA published a final rulemaking at 79 FR 4095, finalizing flood elevation determinations along one or more flooding sources in Colfax County, Nebraska, and Incorporated Areas.
