Office of Administration; Notice of Meeting of the Commission on the Intelligence Capabilities of the United States Regarding Weapons of Mass Destruction

ACTION: Notice.

SUMMARY: The Commission on the Intelligence Capabilities of the United States Regarding Weapons of Mass Destruction ("Commission") will meet in closed session on Wednesday, September 29, 2004, and Thursday, September 30, 2004, in its offices in Arlington, Virginia.

Executive Order 13328 established the Commission for the purpose of assessing whether the Intelligence Community is sufficiently authorized, organized, equipped, trained, and resourced to identify and warn in a timely manner of, and to support the United States Government's efforts to respond to, the development of Weapons of Mass Destruction, related means of delivery, and other related threats of the 21st Century. This meeting will consist of briefings and discussions involving classified matters of national security, including classified briefings from representatives of agencies within the Intelligence Community; Commission discussions based upon the content of classified intelligence documents the Commission has received from agencies within the Intelligence Community; and presentations concerning the United States' intelligence capabilities that are based upon classified information. While the Commission does not concede that it is subject to the requirements of the Federal Advisory Committee Act (FACA), 5 United States Code Appendix 2, it has been determined that the September 29-30 meeting would fall within the scope of exceptions (c)(1) and (c)(9)(B) of the Sunshine Act, 5 United States Code, Sections 552b(c)(1) & (c)(9)(B), and thus could be closed to the public if FACA did apply to the Commission.

DATES: Wednesday, September 29, 2004 (9 a.m. to 5 p.m.) and Thursday, September 30, 2004. (9 a.m. to 2 p.m.).

Needs and Uses: FCC Form 304 is used by existing Multipoint Distribution (MDS) operators to modify their stations or to add a signal booster station. This collection of information also includes the burden for the technical rules involving the interference or engineering analysis and service requirements under Sections 21.902, 21.913, and 21.938. These analyses will not be submitted with the application but will be retained by the operator and must be made available to the Commission upon request. MDS/ Instructional Television Fixed Service (ITFS) applicants/licensees will need this information to perform the necessary analyses of the potential for harmful interference to their facility.

The Commission is now revising this form to request additional information

to complete the Universal Licensing Service (ULS) data elements since MDS/ITFS has been implemented into ULS. Additional information such as the licensee's email address, fax number, type of applicant, contact's email address and fax number will be added to this form. Each licensee must specify as a condition that upon the completion of construction, the licensee file with the Commission a FCC Form 304A, certifying that the facilities as authorized have been completed, the station is operational, and ready to provide service to the public.
