

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number. All currently approved NOAA collections of information may be viewed at: [http://www.cio.noaa.gov/services\\_programs/prasubs.html](http://www.cio.noaa.gov/services_programs/prasubs.html).

The NOAA Assistant Administrator for Fisheries (AA) finds there is good cause to waive prior notice and opportunity for public comment for this action pursuant to 5 U.S.C. 553(b)(B) of the Administrative Procedure Act (APA), because prior notice and opportunity for public comment on this final rule is unnecessary and contrary to the public interest. In part, this action simply provides notice of OMB's approval of the reporting requirements at issue, which has already occurred, and renders those requirements effective. Thus, this part of this action does not involve any further exercise of agency discretion by NMFS or OMB. Moreover, the public has had prior notice and the opportunity to comment on the collection-of-information requirements. NMFS published a proposed rule including the collection-of-information requirements on April 16, 2019 (84 FR 15556), with comments accepted through May 16, 2019. NMFS received two comments on the collection-of-information requirements related to a proposed supplementation of a vessel departure notification and an ability to apply for associated permit applications online. The final rule published on December 20, 2019 (84 FR 70040), addressed these comments, keeping the proposed supplemental vessel departure notice in place for the reasons described there, while revising the purse seine vessel permit application collection-of-information requirements to allow for an online process. Both such processes were considered and approved under PRA control number 0648–0387. Additional opportunity for public comment at this point would not be meaningful and would be duplicative. Any further delay to allow for public comment is therefore unnecessary and would result in public confusion.

For the aforementioned reasons, the AA also finds good cause to waive the

30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

These measures are thus exempt from the procedures of the Regulatory Flexibility Act because prior notice and comment are not required under the APA.

Dated: September 14, 2020.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 679

[Docket No. 200227–0066; RTID 0648–XA435]

#### Fisheries of the Exclusive Economic Zone off Alaska; Pacific Cod by Catcher Vessels Greater Than or Equal to 60 Feet Length Overall Using Pot Gear in the Bering Sea and Aleutian Islands Management Area

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS is prohibiting directed fishing for Pacific cod by catcher vessels greater than or equal to 60 feet (18.3 meters (m)) length overall (LOA) using pot gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2020 Pacific cod total allowable catch allocated to catcher vessels greater than or equal to 60 feet (18.3m) LOA using pot gear in the BSAI.

**DATES:** Effective 1200 hours, Alaska local time (A.l.t.), September 16, 2020, through 2400 hours, A.l.t., December 31, 2020.

**FOR FURTHER INFORMATION CONTACT:** Krista Milani, 907–581–2062.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under

authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2020 Pacific cod total allowable catch (TAC) allocated to catcher vessels greater than or equal to 60 feet (18.3m) LOA using pot gear in the BSAI is 11,616 metric tons (mt) as established by the final 2020 and 2021 harvest specifications for groundfish in the BSAI (85 FR 13553, March 9, 2020).

In accordance with § 679.20(d)(1)(iii), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2020 Pacific cod TAC allocated as a directed fishing allowance to catcher vessels greater than or equal to 60 feet (18.3m) LOA using pot gear in the BSAI will soon be reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by catcher vessels greater than or equal to 60 feet (18.3m) LOA using pot gear in the BSAI.

While this closure is effective the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

#### Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of Pacific cod by catcher vessels greater than or equal to 60 feet (18.3m) LOA using pot gear in the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of September 14, 2020.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: September 15, 2020.
