SUPPLEMENTARY INFORMATION:

The U.S. Department of Energy (DOE) published a document in the **Federal Register** on September 28, 2010, concerning a public meeting and availability of a framework document initiating the rulemaking process to amend the energy conservation standards for certain commercial and industrial electric motors. DOE seeks comment from interested parties on the procedural and analytical approaches it anticipates using to evaluate energy conservation standards for commercial and industrial electric motors, which are addressed in the framework document, available at http://www1.eere.energy.gov/buildings/appliance_standards/commercial/electric_motors.html. The framework document is the starting point for potentially amending the energy conservation standards for electric motors prescribed in the Energy Policy and Conservation Act of 1975, as amended, (EPCA) and codified in Title 10 of the Code of Federal Regulations, Part 431. The notice of public meeting and availability of the framework document published on September 28, 2010 (75 FR 59657) informed interested parties that DOE would accept written comments on the framework document no later than October 28, 2010.

The National Electrical Manufacturers Association (NEMA), American Council for an Energy-Efficient Economy

(ACEEE), and the Appliance Standards Awareness Project (ASAP) requested a comment deadline extension of two weeks after the transcript of the October 18, 2010, framework document public meeting is posted on-line and available for public review.

Based on the joint request from NEMA, ACEEE, and ASAP, DOE believes that extending the comment period to allow additional time for interested parties to submit comments is appropriate. Therefore, DOE is extending the comment period until November 24, 2010, to provide interested parties additional time to prepare and submit comments. DOE will accept comments received no later than November 24, 2010 and will not consider any further extensions to the comment period. If DOE receives any comments after October 28, 2010, but before the date of publication of this notice in the **Federal Register**, DOE will consider those comments to be timely filed.

Issued in Washington, DC, on October 28, 2010.

Cathy Zoi,

Assistant Secretary, Energy Efficiency and Renewable Energy.

Airworthiness Directives; The Boeing Company Model 737-700, -700C, -800, and -900ER Series Airplanes, Model 747-400F Series Airplanes, and Model 767-200 and -300 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Model 737-700, -700C, -800, and -900ER series airplanes, Model 747-400F series airplanes, and Model 767-200 and -300 series airplanes. This proposed AD would require an inspection for affected serial numbers of the crew oxygen mask stowage box units; and replacement of the crew oxygen mask stowage box unit with a new crew oxygen mask stowage unit, if necessary. This proposed AD results
