

beneficiary sub-Saharan African countries. This preferential treatment is also available for apparel articles assembled in one or more lesser-developed beneficiary sub-Saharan African countries, regardless of the country of origin of the fabric used to make such articles, subject to quantitative limitation. Public Law 114–27 extended this special rule for lesser-developed countries through September 30, 2025.

The AGOA Acceleration Act of 2004 provides that the quantitative limitation for the twelve-month period beginning October 1, 2020 will be an amount not to exceed 7 percent of the aggregate square meter equivalents of all apparel articles imported into the United States in the preceding 12-month period for which data are available. *See* Section 112(b)(3)(A)(ii)(I) of TDA 2000, as amended by Section 7(b)(2)(B) of the AGOA Acceleration Act of 2004. Of this overall amount, apparel imported under the special rule for lesser-developed countries is limited to an amount not to exceed 3.5 percent of all apparel articles imported into the United States in the preceding 12-month period. *See* Section 112(b)(3)(B)(ii)(II) of TDA 2000, as amended by Section 6002(a)(3) of TRHCA 2006. The Annex to Presidential Proclamation 7350 of October 2, 2000 directed CITA to publish the aggregate quantity of imports allowed during each 12-month period in the **Federal Register**.

For the one-year period, beginning on October 1, 2020, and extending through September 30, 2021, the aggregate quantity of imports eligible for preferential treatment under these provisions is 1,856,390,368 square meters equivalent. Of this amount, 928,195,184 square meters equivalent is available to apparel articles imported under the special rule for lesser-developed countries. Apparel articles entered in excess of these quantities will be subject to otherwise applicable tariffs. These quantities are calculated using the aggregate square meter equivalents of all apparel articles imported into the United States, derived from the set of Harmonized System lines listed in the Annex to the World Trade Organization Agreement on Textiles and Clothing (ATC), and the conversion factors for units of measure into square meter equivalents used by the United States in implementing the ATC.

This form also collects additional information required for effective oversight of these entities. There has been no change to the supporting regulatory language. We have reevaluated the usage of the form and there is a resulting decrease in the number of respondents and burden hours.
