

ICR under OMB control number 1210-0117. The approval will expire on March 31, 2002.

PWBA previously published a notice in the **Federal Register** (65 FR 58822, October 2, 2000) announcing the control number and expiration date for OMB approval of EFAST-1. However, the expiration date indicated in that notice was incorrect. A subsequent Correction published on October 6, 2000 (65 FR 59877) also included an inadvertent error with respect to the expiration date.¹

In order to clarify that the actual expiration date of OMB's approval of the Form EFAST-1 is March 31, 2002, PWBA is publishing this corrected notice in full.

Under 5 CFR 1320.5(b), an Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

Dated: October 10, 2000.

Gerald B. Lindrew,

Deputy Director, Office of Policy and Research, Pension and Welfare Benefits Administration.

BILLING CODE 4510-29-M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Federal Council on the Arts and the Humanities; Arts and Artifacts Indemnity Panel Advisory Committee; Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463 as amended) notice is hereby given that a meeting of the Arts and Artifacts Indemnity Panel of the Federal Council on the Arts and the Humanities will be held at 1100 Pennsylvania Avenue, NW., Washington, DC 20506, in Room 714, from 9 a.m. to 5 p.m., on Thursday, November 9, 2000.

The purpose of the meeting is to review applications for Certificates of Indemnity submitted to the Federal Council on the Arts and the Humanities for exhibitions beginning after January 1, 2001.

Because the proposed meeting will consider financial and commercial data and because it is important to keep values of objects, methods of transportation and security measures confidential, pursuant to the authority granted me by the Chairman's Delegation of Authority to Close

Advisory Committee Meetings, dated July 19, 1993, I have determined that the meeting would fall within exemption (4) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of views and to avoid interference with the operations of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Laura S. Nelson, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, or call 202/606-8322.

Laura S. Nelson,

Advisory Committee Management Officer.

BILLING CODE 7036-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-461]

In the Matter of AmerGen Energy Company, LLC (Clinton Power Station); Order Approving Application Regarding Proposed Corporate Restructuring

I.

AmerGen Energy Company (AmerGen, the licensee) is the holder of Facility Operating License No. NPF-62, which authorizes AmerGen to possess, use, and operate Clinton Power Station (the facility). The facility is located at the licensee's site in DeWitt County, Illinois. British Energy, Inc., and PECO Energy Company (PECO) each own 50 percent of AmerGen.

II.

By application dated July 19, 2000, AmerGen requested approval of the indirect transfer of the facility operating license to Exelon Corporation, to the extent such would occur upon PECO becoming a subsidiary of Exelon Corporation, a new corporation to be formed in connection with the proposed merger of Unicom Corporation (Unicom), the parent of Commonwealth Edison Company, and PECO. Supplemental information was provided by a submittal dated September 15, 2000.

Under the proposed merger, PECO will become a direct or indirect subsidiary of Exelon Corporation. The merger was previously the subject of an AmerGen application dated February 28, 2000, in which AmerGen requested approval of the indirect transfer of the Clinton license (and certain other licenses held by AmerGen) that would

occur as a result of a proposed transfer of PECO's 50 percent interest in AmerGen to Exelon Generation Company, LLC (EGC). EGC is to be formed in connection with the merger between Unicom and PECO referred to above, and will also become a subsidiary of Exelon Corporation. British Energy, Inc., is not involved in the merger, and its interest in AmerGen will remain unchanged. The February 28, 2000, application is still under review.

According to the July 19, 2000, application, the transfer of PECO's 50 percent interest in AmerGen to EGC may be delayed beyond the closing of the merger. During this interim period, Exelon Corporation would become and continue to be the direct parent of PECO pending the receipt of necessary approvals to allow PECO's generating assets, including its interest in AmerGen, to be transferred to EGC; PECO would continue to hold its 50 percent interest in AmerGen, which will continue to be the sole owner and operator of Clinton.

Approval of the indirect transfer of the facility operating license that would occur under the immediately preceding circumstances was requested by AmerGen pursuant to 10 CFR 50.80. Notice of the request for approval and an opportunity for a hearing was published in the **Federal Register** on August 31, 2000 (65 FR 53035). The Commission received no comments or requests for hearing pursuant to such notice.

Under 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. Upon review of the information in the July 19, 2000, application by AmerGen, the September 15, 2000, supplement, and other information before the Commission, the NRC staff has determined that the proposed corporate restructuring under which Exelon Corporation will become the parent of PECO while PECO continues to hold its ownership interest in AmerGen, will not affect the qualifications of AmerGen as holder of the license described above, and that the indirect transfer of the license, to the extent effected by the proposed corporate restructuring, is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission, subject to the condition set forth below.

The findings set forth above are supported by a safety evaluation dated October 5, 2000.

¹ Incorrect dates printed in these notices were March 3, 2002 and March 31, 2000, respectively.
