

Government of Peru and will consult with said party upon its request.

If a determination under this section is affirmative, the Committee may provide import tariff relief to a U.S. industry to the extent necessary to remedy or prevent the serious damage or actual threat thereof and to facilitate adjustment by the domestic industry to import competition. Such relief may consist of an increase in duties to the lower of: (1) The NTR/MFN duty rate in place for the textile or apparel article at the time the relief is granted; or (2) the NTR/MFN duty rate for that article on the day before the Agreement enters into force.

The import tariff relief is effective beginning on the date that the Committee's affirmative determination is published in the **Federal Register**. The maximum period of import tariff relief shall be three years. However, if the initial period for import relief is less than three years, the Committee may extend the period of import relief to the maximum three-year period if the Committee determines that the continuation is necessary to remedy or prevent serious damage or actual threat thereof by the domestic industry to import competition, and that the domestic industry is, in fact, making a positive adjustment to import competition. Import tariff relief may not be imposed for an aggregate period greater than three years. Import tariff relief may not be applied to the same article at the same time under these procedures if relief previously has been granted with respect to that article under: (1) These provisions; (2) Subtitle A to Title III of the Act; or (3) Chapter 1 of Title II of the Trade Act of 1974.

Authority to provide import tariff relief for a textile or apparel article from Peru that is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing a like or directly competitive article, will expire five years after the date on which the Agreement enters into force.

4. Self Initiation. The Committee may, on its own initiative, consider whether imports of a textile or apparel article from Peru are being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing a like or directly competitive article. In such considerations, the Committee will follow procedures consistent with those

set forth in Section 2 of this notice, including causing to be published in the **Federal Register** a notice seeking public comment regarding the action it is considering.

5. Record Keeping and Business Confidential Information. OTEXA will maintain an official record for each request on behalf of the Committee. The official record will include all factual information, written argument, or other material developed by, presented to, or obtained by OTEXA regarding the request, as well as other material provided to the Department of Commerce by other government agencies for inclusion in the official record. The official record will include Committee memoranda pertaining to the request, memoranda of Committee meetings, meetings between OTEXA staff and the public, determinations, and notices published in the **Federal Register**. The official record will contain material which is public, business confidential, privileged, and classified, but will not include pre-decisional inter-agency or intra-agency communications. If the Committee decides it is appropriate to consider materials submitted in an untimely manner, such materials will be maintained in the official record. Otherwise, such material will be returned to the submitter and will not be maintained as part of the official record. OTEXA will make the official record public except for business confidential information, privileged information, classified information, and other information the disclosure of which is prohibited by U.S. law. The public record will be available to the public for inspection and copying in a public reading room located in the Department of Commerce, Trade Information Center.

Information designated by the submitter as business confidential will normally be considered to be business confidential unless it is publicly available. The Committee will protect from disclosure any business confidential information that is marked "business confidential" to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided, in which business confidential information is summarized or, if necessary, deleted. The Committee will make available to the public non-confidential versions of the request that is being considered, non-confidential versions of any public comments received with respect to a request, and, in the event consultations are requested, the statement of the reasons and

justifications for the determination subsequent to the delivery of the statement to Peru.

Kim Glas,

Chairman, Committee for the Implementation of Textile Agreements.

Background

The AmeriCorps*VISTA Concept Paper and Application Instructions are used by the Corporation in the selection of VISTA sponsors and in the approval of both new and renewing VISTA projects. The information collection consists of a brief Concept Paper, and, if the Concept Paper is approved, a full application including budget.

The Progress Report (PPR) and VISTA Progress Report Supplement

(VPRS) is designed to assure that AmeriCorps*VISTA sponsors address and fulfill legislated program purposes, meet agency program management and grant requirements, and assess progress toward project plan goals agreed upon in the signing of the Memorandum of Agreement.

Current Action

The Corporation seeks to renew the Concept Paper and Application Instructions to: (a) Reduce respondent burden; (b) enhance data elements collected via this information collection tool; (c) comply with provisions in the Serve America Act regarding Focus Areas.

The Corporation seeks to renew the current PPR and VPRS used by AmeriCorps*VISTA sponsors and grantees to report progress toward accomplishing work plan goals and objectives, reporting actual outcomes related to self-nominated performance measures meeting challenges encountered, describing significant activities, and requesting technical assistance.

The Corporation is proposing to merge two current information collection requests into one information collection request consisting of four instruments.

The information collection will otherwise be used in the same manner as the currently approved information collection requests. The Corporation also seeks to continue using the current information collections until the renewal is approved by OMB.
