

DEPARTMENT OF EDUCATION**[CFDA No. 84.326H]****Proposed Extensions and Waivers:
National Early Childhood Technical
Assistance Center**

AGENCY: Office of Special Education Programs, Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice of proposed extension of project period and waiver for the National Early Childhood Technical Assistance Center.

SUMMARY: The Secretary proposes to waive the requirements in the Education Department General Administrative Regulations (EDGAR), in 34 CFR 75.250 and 75.261(a) and (c), respectively, that generally prohibit project periods exceeding five years and extensions of project periods involving the obligation of additional Federal funds. This extension of project period and waiver would enable the currently funded project to receive funding from October 1, 2011 through September 30, 2012.

DATES: We must receive your comments on or before July 7, 2011.

ADDRESSES: Address all comments about this proposed extension of project period and waiver to Julia Martin Eile, U.S. Department of Education, 400 Maryland Avenue, SW., room 4056, Potomac Center Plaza (PCP), Washington, DC 20202-2600.

Background

On April 28, 2006, the Department published a notice in the **Federal Register** (71 FR 25163) inviting applications for new awards for fiscal year (FY) 2006 for a National Early Childhood Technical Assistance Center (NECTAC). The purpose of the NECTAC, which was funded under the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities (TA&D) program, authorized under section 663 of the Individuals with Disabilities Education Act (IDEA), is to ensure that eligible infants, toddlers, and children with disabilities (ages birth through five years) receive, as appropriate, services under Parts B and C of the IDEA that ultimately improve their developmental and early learning outcomes. Another purpose of the NECTAC is to ensure that the families of eligible infants, toddlers, and children receiving services under Part C of the IDEA receive services necessary to enhance families' capacity to meet the developmental needs of their infant, toddler, or child.

Based on the 2006 notice inviting applications, the Department made one award for a period of 60 months to the University of North Carolina at Chapel Hill to carry out the activities of the NECTAC.

Currently, the NECTAC focuses on providing technical assistance to strengthen State and local early childhood systems and improve outcomes for infants, toddlers, and children with disabilities and families of infants, toddlers, and children receiving services under Part C of the IDEA.

The NECTAC's current project period is scheduled to end on September 30, 2011. At the current time, we do not believe it would be in the public interest to hold a new competition under this program for a new NECTAC. An

extension of the current grantee's project will align the end of the current NECTAC project period with the expiration of the project period for the Technical Assistance Center on Social-Emotional Intervention for Young Children (CFDA No. 84.326B) and allow for the Department to develop a strategic and better coordinated approach to early childhood special education technical assistance without there being a lapse in the provision of technical assistance services currently provided by the NECTAC. For these reasons, the Secretary proposes to waive the requirements in 34 CFR 75.250, which prohibit project periods exceeding five years, and the requirements in 34 CFR 75.261(a) and (c), which limit the extension of a project period if the extension involves the obligation of additional Federal funds, and issue a continuation award in the amount of \$3,000,000 to the University of North Carolina at Chapel Hill (H326H060005) for an additional twelve-month period.

Waiving these regulations and issuing this continuation award would ensure that technical assistance is available to strengthen State and local early childhood systems and improve outcomes for infants, toddlers, and children with disabilities and families of infants, toddlers, and children receiving services under Part C of the IDEA.

With this proposed extension of project period and waiver, the NECTAC would conduct the following activities during FY 2012:

(a) Develop products and services to respond to State needs prioritized on the basis of results of current needs-analyses and syntheses.

(b) Provide coordinated individualized and multi-State technical assistance services to address high-priority needs.

(c) Support State-specific technical assistance efforts specified by the Department's Office of Special Education Programs.

(d) Coordinate with other relevant national and State-level technical assistance efforts.

(e) Disseminate documents to a wide audience, including State and local directors of special education.

(f) Maintain the NECTAC's Web site.

Regulatory Flexibility Act Certification

The Secretary certifies that this proposed extension of project period and waiver would not have a significant economic impact on a substantial

number of small entities. The entities that would be affected are the current grantee serving as the NECTAC and any other potential applicant.

Paperwork Reduction Act of 1995

This proposed extension of project period and waiver does not contain any information collection requirements.

Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance. This document provides early notification of our specific plans and actions for this program.

Background

On June 19, 2006, the Department published a notice in the **Federal Register** (71 FR 35260) inviting applications for new awards for fiscal year (FY) 2006 for a National Professional Development Enhancement Center (Center), funded under the Personnel Development to Improve Services and Results for Children with Disabilities program, authorized under section 662 of the Individuals with Disabilities Education Act (IDEA).

The purpose of the Center is to provide pre-service training and professional development programs with high-quality instructional modules, materials, and resources in order to improve the overall quality of special education personnel training and professional development. The goal is to help ensure that local educational agencies (LEAs) and schools have the capacity to implement school improvement programs to close achievement gaps between students with disabilities and their peers, and to promote access to, and greater participation and progress in, the general education curriculum in the least restrictive environment for students with disabilities.

Based on the 2006 notice inviting applications, the Department made one award for a period of 60 months to Vanderbilt University to serve as the Center. The Center's current project period is scheduled to end on September 30, 2011. We do not believe that it would be in the public interest to hold a new competition in 2011 to fund this personnel development project as the Department is currently working on changes to the entire Personnel Development to Improve Services and Results for Children with Disabilities program. The program's new design will ensure that all the projects being supported are more strategically aligned with each other and that all projects more effectively meet the needs of LEAs and schools for effective teachers and
