Federal Register

Vol. 89, No. 115

Thursday, June 13, 2024

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Doc. No.: AMS-LRRS-24-0025]

Notice of Request for an Extension of a Currently Approved Information Collection: Qualitative Feedback on Agency Service Delivery

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Marketing Service's (AMS) intention to request approval from the Office of Management and Budget (OMB), for an extension of a currently approved information collection associated with qualitative customer and stakeholder feedback on service delivery by the AMS.

DATES: Comments on this notice must be received by August 12, 2024 to be assured of consideration.

ADDRESSES: Interested persons are invited to submit comments concerning this notice online using the electronic process available at <https://www.regulations.gov>. Written comments may be submitted to: Legislative & Regulatory Review Staff, AMS, USDA, 1400 Independence Avenue SW, Stop 0202, Room 2938-S, Washington, DC 20250; Fax: (202) 690-3767. All comments submitted in response to this notice will be posted without change, including any personal information provided, at <https://www.regulations.gov/>, included in the record, and made available to the public.

FOR FURTHER INFORMATION CONTACT: Joell Gilham, Legislative & Regulatory Review Staff, AMS, USDA; Telephone (202) 720-2986, or Email norma.gilham@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery-AMS.

OMB Number: 0581-0269.

Expiration Date of Approval: August 31, 2024.

Type of Request: Extension of a Currently Approved Information Collection.

Abstract: The proposed information collection activity provides a means for AMS to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Agency's commitment to improving service delivery.

By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. This collection will allow for ongoing, collaborative, and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

AMS will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and is low-cost for both the respondents and the Federal Government;

- The collection is non-controversial and does not raise issues of concern to other Federal agencies;

- The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;

- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of AMS (if released, AMS must indicate the qualitative nature of the information);

- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collection will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding this study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, this information collection will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual

behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

AMS currently has approval from the Office of Management and Budget (OMB) for this information collection. This approval is for 60,000 burden hours, based on our initial request to OMB in April 2011. We are requesting that the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.50 hours per response.

Respondents: Individuals and households; businesses and organizations; State, local, or Tribal government.

Estimated Annual Number of Respondents: 110,000.

Estimated Number of Responses: 110,000.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 60,000 (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

Comments: Comments are invited on: (1) Whether the proposed collection of the information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

BILLING CODE P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by July 15, 2024. Written comments and recommendations for the proposed information collection should be submitted, identified by docket number 0535-0264, within 30 days of the publication of this notice by any of the following methods:

- *Email:* ombofficer@nass.usda.gov. Include docket number above in the subject line of the message.
- *E-fax:* 855-838-6382.
- *Mail:* Mail any paper, disk, or CD-ROM submissions to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336, South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.
- *Hand Delivery/Courier:* Hand deliver to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336, South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service (NASS)

Title: Land Leasing Survey in Oklahoma.

OMB Control Number: 0535-0264.

Summary of Collection: The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue official State and national estimates of crop and livestock production, disposition and prices, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow-on surveys. NASS will conduct a survey of agricultural operations in Oklahoma. Selected farmers will be asked to provide data on rent & acreage as well as form of the lease agreement for operations with the following lease agreements: (1) cash rent for selected crops, (2) share rent, (3) pasture leases, winter grazing, and recreational leases. General authority for these data collection activities is granted under U.S.C. Title 7, Section 2204.

Need and Use of the Information: Oklahoma State University, as well as many farmers and ranchers in Oklahoma, have been interested in land rental rates for agricultural operations in greater detail than what is provided in the Cash Rents and Leases Survey used to satisfy the requirement originally specified in the 2008 Farm Bill and conducted under Office of Management and Budget approval number 0535-0002.

To assist producers with this data need, the Oklahoma State University, Department of Agricultural Economics (OSU-DAE), has been collecting and publishing statistical estimates biennially for more than 30 years—before USDA-NASS was tasked with the Cash Rents County Estimates. The OSU-DAE obtained statistics to assist producers in making sound rental agreements. Due to the diverse nature of the state, OSU-DAE felt it necessary to provide more descriptive land breakouts such as pasture estimates into native pasture and improved pasture due to large price differences and input costs associated with each type of pasture.

The NASS Oklahoma Field Office routinely receives data requests from data users specific to land leasing rates. While NASS does typically have county and state level cash rents data available for data users, many times they are looking for more detail on the breakout of pastureland or cropland. In Oklahoma, improved grasses for pastureland tend to bring above average rates due to the delivered output, and the same applies to some cropland.
