SUPPLEMENTARY INFORMATION:

I. Abstract

The Infrastructure Investment and Jobs Act, 2021 (Infrastructure Act or Act), Public Law 117-58, 135 Stat. 429

(November 15, 2021) (Infrastructure Act or Act), also known as the Bipartisan Infrastructure Law, provided \$65 billion of funding for programs to close the digital divide and ensure that all Americans have access to affordable, reliable, high-speed internet. NTIA administers six broadband connectivity grant programs funded by the Act, including the State Digital Equity Planning Grant (SDEPG) and the State Digital Equity Capacity Grant Program (SDECG). The SDEPG provides federal funding for grants to eligible applicants for the purpose of developing Digital Equity Plans. Through these Plans, entities will, among other things, identify barriers to digital equity in the State and strategies for overcoming those barriers. The purpose of SDECG is to promote the achievement of digital equity, support digital inclusion activities, and build capacity for efforts by States, U.S. territories and possessions, Indian Tribes, Alaska Native entities, and Native Hawaiian organizations relating to the adoption of broadband. The SDECG provides new federal funding for grants to eligible applicants for the purpose of implementing the State Digital Equity Plan and pursuing digital inclusion activities consistent with the State Digital Equity Plan. Further, the Tribal Digital Equity Planning and Capacity Program will provide funding for grants to Indian Tribes, Alaska Native entities, and Native Hawaiian organizations to develop their own digital equity plans and pursue digital inclusion activities, consistent with the SDEPG and the SDECG.

NTIA will use the information collected from each applicant to effectively review the proposed applications and budgets from States and U.S. Territories and Possessions for the State Digital Equity Capacity Program, and from Indian Tribes, Alaska Native entities, and Native Hawaiian organizations for the Tribal Digital Equity Planning and Capacity Program.

II. Method of Collection

NTIA will collect data through both electronic and mail submission.
