

may also require that FDIC staff participate as the SARC deems appropriate.

L. Dismissal and Withdrawal

An appeal may be dismissed by the SARC if it is not timely filed, if the basis for the appeal is not discernable from the appeal, or if the institution moves to withdraw the appeal.

M. Scope of Review and Decision

The SARC will review the appeal for consistency with the policies, practices and mission of the FDIC and the overall reasonableness of and the support offered for the positions advanced, and notify the institution, in writing, of its decision concerning the disputed material supervisory determination(s) within 60 days from the date the appeal is filed, or within 60 days from oral presentation, if held. SARC review will be limited to the facts and circumstances as they existed prior to or at the time the material supervisory determination was made, even if later discovered, and no consideration will be given to any facts or circumstances that occur or corrective action taken after the determination was made. The SARC may reconsider its decision only on a showing of an intervening change in the controlling law or the availability of material evidence not reasonably available when the decision was issued.

N. Publication of Decisions

SARC decisions will be published, and the published SARC decisions will be redacted to avoid disclosure of exempt information. In cases where redaction is deemed to be insufficient to prevent improper disclosure, published decisions may be presented in summary form. Published SARC decisions may be cited as precedent in appeals to the SARC.

O. SARC Guidelines Generally

Appeals to the SARC will be governed by these guidelines. The SARC will retain the discretion to waive any provision of the guidelines for good cause; the SARC may adopt supplemental rules governing SARC operations; the SARC may order that material be kept confidential; and the SARC may consolidate similar appeals.

P. Limitation on Agency Ombudsman

The subject matter of a material supervisory determination for which either an appeal to the SARC has been filed or a final SARC decision issued is not eligible for consideration by the Ombudsman.

Q. Coordination With State Regulatory Authorities

In the event that a material supervisory determination subject to a request for review is the joint product of the FDIC and a State regulatory authority, the Director, Division of Supervision and Consumer Protection, will promptly notify the appropriate State regulatory authority of the request, provide the regulatory authority with a copy of the institution's request for review and any other related materials, and solicit the regulatory authority's views regarding the merits of the request before making a determination. In the event that an appeal is subsequently filed with the SARC, the SARC will notify the institution and the State regulatory authority of its decision. Once the SARC has issued its determination, any other issues that may remain between the institution and the State authority will be left to those parties to resolve.

R. Effect on Supervisory or Enforcement Actions

The use of the procedures set forth in these guidelines by any institution will not affect, delay, or impede any formal or informal supervisory or enforcement action in progress or affect the FDIC's authority to take any supervisory or enforcement action against that institution.

S. Effect on Applications or Requests for Approval

Any application or request for approval made to the FDIC by an institution that has appealed a material supervisory determination which relates to or could affect the approval of the application or request will not be considered until a final decision concerning the appeal is made unless otherwise requested by the institution.

T. Prohibition on Examiner Retaliation

The FDIC has an experienced examination workforce and is proud of its professionalism and dedication. FDIC policy prohibits any retaliation, abuse, or retribution by an agency examiner or any FDIC personnel against an institution. Such behavior against an institution that appeals a material supervisory determination constitutes unprofessional conduct and will subject the examiner or other personnel to appropriate disciplinary or remedial action. Institutions that believe they have been retaliated against are encouraged to contact the Regional Director for the appropriate FDIC region. Any institution that believes or has any evidence that it has been subject to retaliation may file a complaint with the

Director, Office of the Ombudsman, Federal Deposit Insurance Corporation, 550 17th Street, Washington, DC 20429, explaining the circumstances and the basis for such belief or evidence and requesting that the complaint be investigated and appropriate disciplinary or remedial action taken. The Office of the Ombudsman will work with the Division of Supervision and Consumer Protection to resolve the allegation of retaliation.

For the reasons stated in the Preamble, the Board has adopted the Guidelines for Appeals of Material Supervisory Determinations as set forth above

By Order of the Board of Directors.

Dated at Washington, DC, the 17th day of September, 2008.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Executive Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket Number NIOSH-109]

Review of NIOSH Draft Current Intelligence Bulletin, "A Strategy for Assigning the New NIOSH Skin Notations for Chemicals"

AGENCY: The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of Public Meeting and availability for Public Comment.

SUMMARY: The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC) is conducting a public review of the NIOSH document "CIB: A Strategy for Assigning the New NIOSH Skin Notations for Chemicals." This draft Current Intelligence Bulletin (CIB) was developed to provide the scientific rationale and framework for a strategy for the assignment of multiple skin notations capable of distinguishing between systemic, localized, and sensitizing health effects of dermal chemical exposures. The strategy has
