

Known to Man, Report on the SAUUL Workshop, June 17–19, 2002 (available at http://www.sc.doe.gov/production/bes/chm/Publications/SAUUL_report_final.pdf).

Purpose of the Workshop: The purpose of the workshop is to explore scientific opportunities and challenges within the emerging field of HEDP. A group of discussants, led by the workshop chairman Professor Ronald Davidson of Princeton University, will collect input and individual opinions on scientific opportunities within the field, their importance, technical barriers, and associated milestones. The group of discussants will be divided into four areas of scientific expertise, each with a rapporteur, to record technical discussions, collate presentations, and write a workshop summary. The four areas of scientific expertise are: A—HEDP in Astrophysical Systems, B—Beam-Induced HEDP (RHIC, heavy ion fusion, high-intensity accelerators, etc.), S—HEDP in Stockpile Stewardship Facilities (Omega, Z, National Ignition Facility, etc.), and U—Ultrafast, Ultraintense Laser Science.

The IWG will then use the workshop summary to develop proposed near-term scientific goals and milestones for the field along with proposed recommendations for a set of phased priorities. The IWG will then announce its list of scientific goals, milestones and phased priorities for public comment in a subsequent **Federal Register** notice. The goals, milestones, and priorities posted for comment will not recommend any specific funding targets nor present any specific recommendations regarding funding initiatives.

Federal scientists and agency representatives are encouraged to participate in workshop discussions. Both federal and non-federal employees may make presentations at the workshop. Members of the discussants group may serve as discussion mediators and facilitators in general and breakout sessions. Professor Davidson, the workshop's chairman, will conduct the meeting to facilitate the orderly conduct of business. Public comment will follow the 10-minute rule.

Tentative Agenda: Agenda will include discussions of the following:

Monday, May 24, 2004

SUPPLEMENTARY INFORMATION:

A. Need For and Use of Information Collection

Section 10(j) of the Federal Home Loan Bank Act (Bank Act) (12 U.S.C. 1430(j)), requires the Finance Board to promulgate regulations under which the 12 Federal Home Loan Banks (FHLBanks) must establish an Affordable Housing Program (AHP) to make subsidized advances to members engaged in lending for long term, low- and moderate-income, owner-occupied and affordable rental housing at subsidized interest rates. Section 10(j) also establishes the standards and requirements for making subsidized AHP advances to FHLBank members. Part 951 of the Finance Board regulations (12 CFR part 951), implements the statutory requirements and authorizes the FHLBanks to make AHP funding decisions.

The information collection contained in part 951 is necessary to enable and is used by the FHLBanks to determine whether an AHP applicant satisfies the statutory and regulatory requirements to receive subsidized advances or direct subsidies under the AHP. The Finance

Board uses the information collection to ensure that FHLBank funding decisions, and the use of the funds awarded, are consistent with statutory and regulatory requirements.

The OMB control number for the information collection is 3069-0006. The OMB clearance for the information collection expires on June 30, 2004.

The likely respondents include applicants for AHP funding.

B. Burden Estimate

The Finance Board has analyzed the cost and hour burden for the seven facets of the information collection—AHP applications, AHP modification requests, monitoring agreements, recapture agreements, homeownership assistance program applications, verifications of statutory and regulatory compliance at the time of subsidy disbursement, and Bank Advisory Council reports and recommendations on AHP Implementation Plans. As explained in more detail below, the estimate for the total annual hour burden for applicant and member respondents is 63,038 hours.

1. AHP Applications

The Finance Board estimates a total annual average of 2,050 applicants for AHP funding, with 1 response per applicant. The estimate for the average hours per application is 25 hours. The estimate for the total annual hour burden for AHP applications is 51,250 hours (2050 applicants × 1 application × 25 hours).

2. AHP Modification Requests

The Finance Board estimates a total annual average of 150 AHP modification requests, with 1 request per respondent. The estimate for the average hours per modification request is 3 hours. The estimate for the total annual hour burden for AHP modification requests is 450 hours (150 respondents × 1 request × 3 hours).

3. AHP Monitoring Agreements

The Finance Board estimates a total annual average of 825 AHP monitoring agreements, with 1 agreement per respondent. The estimate for the average hours to implement each AHP monitoring agreement and prepare and review required reports and certifications is 4.5 hours. The estimate for the total annual hour burden for AHP monitoring agreements is 3,713 hours (825 respondents × 1 agreement × 4.5 hours).

4. AHP Recapture Agreements

The Finance Board estimates a total annual average of 825 AHP recapture
