Subsection 1605(b) provides that the Buy American requirement shall not apply in any case or category in which the head of a Federal department or agency finds that: (1) Applying the Buy American requirement would be inconsistent with the public interest; (2) iron, steel, and the relevant manufactured goods are not produced in the U.S. in sufficient and reasonably available quantities or of satisfactory quality, or (3) inclusion of iron, steel, and manufactured goods will increase the cost of the overall project by more than 25 percent. Subsection 1605(c) provides that if the head of a Federal department or agency makes a determination that it is necessary to waive subsection 1605(a) pursuant to subsection 1605(b), the head of the department or agency shall publish a detailed written justification in the **Federal Register**.
