#### AlliedSignal, Mishawaka, Indiana; Notice of Revised Determination on Reopening

On February 8, 2000, the Department, at the request of the company, reopened its investigation for workers and former workers of the subject firm. The workers were engaged in the manufacture of guided missile targets.

The initial investigation resulted in a negative determination issued on January 31, 2000, because the investigation revealed that the company's primary customer was not purchasing imported missile targets which were like or directly competitive with those manufactured by the subject firm. The notice soon will be published in the **Register**.

New information provided by the company and the primary customer of the subject firm revealed that the customer is purchasing imported guided missile targets which are like those previously manufactured at the Mishawaka, Indiana facility.

#### Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with guided missile targets produced by the subject firm contributed importantly to the decline in sales to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination.

All workers of AlliedSignal, located in Mishawaka, Indiana who become totally or partially separated from employment on or after November 17, 1998, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 8th day of February, 2000.

#### DMI Furniture, Inc., Plant #4, Ferdinand, Indiana; Notice of Revised Determination on Reopening

By letter of February 4, 2000, the United Steelworkers of America, District 7, Sub District 3, Indianapolis, Indiana, requested administrative reconsideration of the Department's negative determination applicable to workers of the subject firm. In the meantime, the Department obtained information relevant to the petition investigation. Consequently, the petition investigation for workers of DMI Furniture, Inc. Plant #4, Ferdinand, Indiana was reopened.

The initial investigation resulted in a negative determination issued on January 26, 1999, based on the finding that criterion (3) of Section 222 of the Trade Act was not met. The separation of workers at the Ferdinand, Indiana plant of the subject firm was attributable to the shift in production of commercial office furniture to other domestic facilities of DMI, Furniture, Inc.

New information obtained on reopening shows that a major declining customer of the subject firm has increased its reliance on imports of commercial office furniture.

#### Conclusion

After careful review of the additional facts obtained on reopening, I conclude that increased imports of articles like or directly competitive with commercial office furniture contributed importantly to the declines in sales or production and to the total or partial separation of workers of DMI Furniture, Inc., Ferdinand, Indiana. In accordance with the provisions of the Act, I make the following revised determination:

"All workers of DMI Furniture, Inc., Plant #4, Ferdinand, Indiana, who became totally or partially separated from employment on or after November 9, 1998, through two years from the date of this issuance are eligible to apply for worker adjustment assistance under Section 223 of the Trade Act of 1974."

Signed in Washington, D.C. this 8th day of February 2000.
