

estimated to average 7.55 hours per response for states and water system respondents combined. However, nearly all of the responses from water systems will occur in the single year of 2011. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

*Respondents/Affected Entities:* Private and Public Water Systems, States, Tribes.

*Estimated Number of Respondents:* 3,176.

*Frequency of Response:* Once.

*Estimated Total Annual Hour Burden:* 16,332 hours.

*Estimated Total Annual Cost:* \$615,842. This cost is exclusively for labor as there are no capital investment or operations and maintenance costs.

*Changes in the Estimates:* There is no currently approved burden as this ICR was previously discontinued during the gap between the three-year ICR cycle and the four-year Needs Survey cycle. The 2011 survey requests 988 more hours of burden annually than the 2007 survey due to higher observed response rates, survey modifications and an increased number of tribes participating in the survey.

Dated: December 3, 2010.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2010-0355; FRL-9237-4]

### Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Beryllium (Renewal), EPA ICR Number 0193.10, OMB Control Number 2060-0092

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

**DATES:** Additional comments may be submitted on or before January 10, 2011.

**ADDRESSES:** Submit your comments, referencing docket ID number EPA-HQ-OECA-2010-0355 to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to [docket.oeca@epa.gov](mailto:docket.oeca@epa.gov), or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

#### FOR FURTHER INFORMATION CONTACT:

Learia Williams, Compliance Assessment and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: [williams.learia@epa.gov](mailto:williams.learia@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 2, 2010 (75 FR 30813), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number

EPA-HQ-OECA-2010-0355, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents, whether submitted electronically or in paper will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments the electronic docket, go to <http://www.regulations.gov>.

**Title:** NESHAP for Beryllium (Renewal).

**ICR Numbers:** EPA ICR Number 0193.10, OMB Control Number 2060-0092.

**ICR Status:** This ICR is schedule to expire on January 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain- EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Beryllium, 40 CFR, part 61, subpart C, were proposed on

December 7, 1971 (36 FR 23939), and promulgated on April 6, 1973 (38 FR 8826). This standard applies to all extraction plants, ceramic plants, foundries, incinerators, and propellant plants which process beryllium ore, beryllium, beryllium oxide, beryllium alloys, or beryllium-containing waste. The standard also applies to machine shops which process beryllium, beryllium oxides, or any alloy when such alloy contains more than five percent beryllium by weight. All sources known to have caused, or have the potential to cause, dangerous levels of beryllium in the ambient air are covered by the Beryllium NESHAP. This information is being collected to ensure compliance with 40 CFR part 61, subpart C.

There are approximately 236 existing sources subject to this rule. Of the total number of existing sources, we have assumed that approximately 10 sources (*i.e.*, respondents) have elected to comply with an alternative ambient air quality limit by operating a continuous monitor in the vicinity of the affected facility. The monitoring requirements for these facilities provide information on ambient air quality and ensure that locally, the airborne beryllium concentration does not exceed 0.01 micrograms/m<sup>3</sup>. The sources that are meeting the rule requirements by means of ambient monitoring are required to submit a monthly report of all measured concentrations to the administrator. The remaining 226 sources have elected to comply with the rule by conducting a one-time-only stack test to determine beryllium emissions levels. We have assumed that 10 percent of the 226 sources (or 23 respondents) complying with the emission limit standard will engage in an operational change at their facilities that could potentially increase beryllium emissions, and would be required to repeat the stack test to determine the beryllium emission limits. Consequently, these sources will have recordkeeping and reporting requirements associated with the stack test. We have assumed that no additional sources are expected to become subject to the standard in the next three years. Therefore, there are 33 respondents for the purpose of determining the recordkeeping and reporting burden associated with this rule.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there

is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 61, subpart C, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations are list in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 16 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining, information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Beryllium.

**Estimated Number of Respondents:** 33.

**Frequency of Response:** Monthly, and on occasion.

**Estimated Total Annual Hour Burden:** 2,627.

**Estimated Total Annual Cost:** \$281,442, which includes \$246,442 in labor costs, zero capital/startup costs, and \$35,000 in operation and maintenance (O&M) costs.

**Changes in the Estimates:** There is no increase in the number of affected facilities, labor hours, or the number of responses compared to the previous ICR. There is, however, an increase in the estimated labor burden cost as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program change. The change in the labor burden cost estimates has occurred because we

updated the labor rates, which resulted in an increase in labor costs.

Dated: December 6, 2010.

## ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-8994-1]

### Environmental Impact Statements; Notice of Availability

*Responsible Agency:* Office of Federal Activities, General Information (202) 564-1399 or <http://www.epa.gov/compliance/nepa/>.

### Weekly Receipt of Environmental Impact Statements, Filed 11/29/2010 Through 12/03/2010

Pursuant to 40 CFR 1506.9.

#### Notice:

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.

EIS No. 20100458, Draft EIS, FHWA, CA, Phase II—CA-11 and Otay Mesa East Port of Entry Project, Construction of a new State Route and Port of Entry in the East Otay Mesa Area of the City and County of San Diego, CA from the State Route 905/State Route 125 Interchange to the U.S.-Mexico Border, Comment Period Ends: 02/01/2011, Contact: Cesar Perez 916-498-5065.
