

few comments in response to the publication. Six commenters opposed the waiver for various reasons; granting the waiver will result in supporting jobs overseas, outsourcing domestic jobs, and loss of manufacturing jobs. None of the commenters provided information on domestic availability of the four rolling element bearing units with 17.3" inner diameter and radial load capacity of 816,000 lb. Based on all the information available to the agency, FHWA concludes that there are no domestic manufacturers of four rolling element bearing units with 17.3" inner diameter and radial load capacity of 816,000 lb for I-5 trunnion shaft replacement project.

The Oregon State DOT, contractors, and subcontractors involved in the procurement of bearing units, are reminded of the need to comply with the Cargo Preference Act in 46 CFR part 38, if applicable.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (Pub. L. 110-244, 122 Stat. 1572), FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to FHWA's Web site via the link provided to the waiver page noted above.

Authority: 23 U.S.C. 313; Pub. L. 110-161, 23 CFR 635.410.

Issued on: November 14, 2016.

Gregory G. Nadeau,
Administrator, Federal Highway Administration.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2008-0010]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 of the Code of Federal Regulations (CFR), this provides the public notice that by a document dated October 20, 2016, Sonoma Marin Area Rail Transit District (SMART) requests a rescission of its existing waiver in Docket Number FRA-2008-0010.

In a April 3, 2009 decision letter, the Federal Railroad Administration (FRA) approved SMART's application for discontinuance and removal of the interlocking signal system on three drawbridges located on the former

Northwestern Pacific Railroad. Among these three was the Haystack Landing Drawbridge over the Petaluma River at milepost (MP) 37.2. SMART is now requesting that the conditions of this relief be changed in order to facilitate the establishment of commuter rail operations on the entire mainline of the former Northwestern Pacific Railroad (NWP). This line is owned by SMART, has been rebuilt to Class IV track standards, has been equipped with an Automatic Train Control (ATC) system meeting the requirements of 49 CFR part 236, and the deteriorated former swing span has been demolished and replaced with a newly rebuilt single-leaf bascule bridge meeting modern standards. The ATC system is interlocked with the new Haystack Landing Drawbridge and its approaches, including a complete surface alignment and locking detection system, which is compliant with 49 CFR 236.312. This system is interlocked with the new Control Point at Hopper South, formerly known as Petaluma South, which will enforce speeds of 50 mph for passenger trains and 40 mph for freight trains over the bridge when it is properly lined and locked. SMART notes that the conditions of the waiver in Docket Number FRA-2008-0010 shall remain in effect on the other two drawbridges. Those locations are the Brazos Drawbridge at MP 64.7; and the Black Point Drawbridge at MP 28.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave., SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- Web site: <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- Fax: 202-493-2251.

- Mail: Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., W12-140, Washington, DC 20590.

- Hand Delivery: 1200 New Jersey Avenue, SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by December 21, 2016 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy. BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2016-0101]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

In accordance with Part 235 of Title 49 Code of Federal Regulations and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated October 18, 2016, Red River Valley & Western Railroad Company (RRVW) petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of a signal system. FRA assigned the petition Docket Number FRA-2016-0101.

Applicant: Red River Valley & Western Railroad Company, Ms. Cynthia Olson, Manager-Operations/Administration, 501 Minnesota Avenue, Breckenridge, MN 56520.

RRVW seeks approval to retire and remove two stop signs located on its

Second Subdivision at Milepost (MP) 38.0 and MP 41.0 at Davenport, ND. When FRA conditionally approved abandonment of the automatic interlocking plant located at the Davenport junction (see Docket Number FRA-1999-5621) in November 1999, one of the conditions of approval required the installation of stop signs at all four quadrants of the RRVW's crossing at grade between the Second and Fourth Subdivisions. Four stop signs were installed at the four junction switches, located at MP 17.0 and MP 19.0, on the Fourth Subdivision and MPs 38.0 and 41.0 on the Second Subdivision.

The reason given for the proposed discontinuance is that RRVW experienced a change in traffic patterns in the last decade and a significant change this past year. The Second Subdivision mainline track has experienced a decline in traffic due to shuttle train traffic rerouting through a new turnout installed at Davenport that now handles a majority of these trains over the Fourth Subdivision instead of the Second Subdivision. Yard limits would remain in effect on both the Second and Fourth Subdivisions. Maximum authorized track speed for these restricted limits is 20 mph, being able to stop short within half the range of vision of the stop sign and other requirements listed by the General Code of Operating Rules 6.13 and 6.27. Maximum speed through the interlocking is 12 mph.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by January 5, 2017 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy. BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2016-0087]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 of Code of Federal Regulations (CFR), this provides the public notice that by a document dated August 16, 2016, the Appanoose County Community Railroad (APNC) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 223.11. FRA assigned the petition Docket Number FRA-2016-0087.

APNC has petitioned FRA to grant a waiver of compliance from 49 CFR part 223, Safety Glazing Standards—Locomotives, Passenger Cars and

Cabooses, for two locomotives, respectively numbered APNC 973 and APNC 116. APNC is a shortline railroad that operates over approximately 34.5 miles of track, and the majority of its operations are through rural or lightly populated areas. Locomotive number APNC 973 is a GP-7 type locomotive and was built in 1953. Locomotive number APNC 116 is a GP-7M type locomotive and was built in 1953. APNC's petition states that existing glazing on both locomotives is in good condition. The petition further states that APNC has no history of glazing related accidents or injuries and is, therefore, requesting a waiver of the safety glazing requirements.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by January 5, 2017 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the
