Therefore, the recordkeeping burden was calculated as the time required for the 10 percent of firms that may not currently be maintaining this documentation to develop and maintain documentation, such as batch records and inventory records. For firms that do not maintain documentation, such as batch records and inventory records, as part of their normal manufacturing operations, it was estimated that with \$500 or less, the necessary software and hardcopy filing systems could be obtained to implement a system.

BILLING CODE 4160-01-S

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

New Products and Updated Fee Schedule for National Flood Insurance Program Map and Insurance Products

AGENCY: Federal Emergency Management Agency (FEMA), Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This Notice contains several new products and the updated fee schedule for processing requests for the National Flood Insurance Program (NFIP) map and insurance products available through the FEMA Map Service Center (MSC). The changes in the fee schedule include two new products and will allow FEMA to reduce further the expenses to the NFIP by recovering more fully the costs associated with producing, retrieving, and distributing particular NFIP map and insurance products.

DATES: The updated fee schedule is effective for all requests dated, August 1, 2003, or later.

FOR FURTHER INFORMATION CONTACT:

Kathy L. Miller, Acting Chief, Information Exchange and Program Evaluation Branch, Mitigation Division, 500 C Street, SW., Washington, DC

20472; by telephone at (202) 646-3316 or by facsimile at (202) 646-4596 (not toll-free calls), by e-mail at Kathy.Miller@DHS.GOV.

SUPPLEMENTARY INFORMATION:

Throughout this Notice, we use “we,” “our,” and “us” to refer to FEMA.

This Notice contains an updated fee schedule to include two new products available through the MSC.

Effective Date. The updated fee schedule is effective for all written requests, on-line internet requests made through the FEMA Flood Map Store, and all telephone requests received on or after August 1, 2003.

Evaluations Performed. To develop the revised fee schedule for the new products, we first evaluated the actual costs incurred at the MSC for producing, retrieving, and distributing these products. We then analyzed historical sales, cost data, and product unit costs for unusual trends or anomalies; analyzed the effect of program changes, new products, technology investments, and other factors on future sales and product costs. The products covered by this Notice are discussed below.

Periodic Evaluation of Fees. As indicated in the Notice, published at 67 FR 13764, March 26, 2002, a primary component of the fees is the prevailing private sector rates charged to FEMA for labor and materials. Because these rates and the actual production, retrieval, and distribution costs may vary from year to year, we will evaluate the fees periodically and publish a revised fee schedule, when appropriate, as a notice in the **Federal Register**.
