

procedures for submitting notification of the alleged violation and the actions that MSHA must take after receiving the notice. Although the regulations contain a review procedure (required by section 103(g)(2) of the Mine Act) whereby a miner or a representative of miners may request a review in writing if no citation or order is issued as a result of the original notice, the option is so rarely used that it was not considered in the burden estimates.

## II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Hazardous Conditions Complaints. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on [www.regulations.gov](http://www.regulations.gov) and [www.reginfo.gov](http://www.reginfo.gov).

The public may also examine publicly available documents at DOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th South, Suite 4E401, Arlington, VA 22202-5452. Sign in at the receptionist's desk on the 4th floor via the East elevator. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor's COVID-19 policy. Special health precautions may be required.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

## III. Current Actions

This request for collection of information contains provisions for Hazardous Conditions Complaints. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

*Type of Review:* Extension, without change, of a currently approved collection.

*Agency:* Mine Safety and Health Administration.

*OMB Number:* 1219-0014.

*Affected Public:* Business or other for-profit.

*Number of Respondents:* 1,785.

*Frequency:* On occasion.

*Number of Responses:* 1,785.

*Annual Burden Hours:* 357 hours.

*Annual Respondent or Recordkeeper Cost:* \$0.

*MSHA Forms:* Hazardous Condition Complaint.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

[OMB Control No. 1219-0016]

### Proposed Extension of Information Collection; Ventilation Plan and Main Fan Maintenance Record

**AGENCY:** Mine Safety and Health Administration, Labor.

**ACTION:** Request for public comments.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration

(MSHA) is soliciting comments on the information collection for Ventilation Plan and Main Fan Maintenance Record.

**DATES:** All comments must be received on or before November 29, 2022.

**ADDRESSES:** Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA-2022-0043.

- *Mail/Hand Delivery:* Mail or visit DOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor's COVID-19 policy. Special health precautions may be required.

- MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

### FOR FURTHER INFORMATION CONTACT: S.

Aromie Noe, Director, Office of Standards, Regulations, and Variances, MSHA, at

[MSHA.information.collections@dol.gov](mailto:MSHA.information.collections@dol.gov) (email); (202) 693-9440 (voice); or (202) 693-9441 (facsimile).

### SUPPLEMENTARY INFORMATION:

#### I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor (Secretary) to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

Underground mines usually present harsh and hostile working environments. The ventilation system is the most vital life support system in underground mining and a properly operating ventilation system is essential for maintaining a safe and healthful working environment. A well planned mine ventilation system is necessary to ensure a fresh air supply to miners at all working places, to control the amounts of harmful airborne contaminants in the mine atmosphere, and to dilute possible accumulation of explosive gases.

Lack of adequate ventilation in underground mines has resulted in fatalities from asphyxiation and/or explosions due to a buildup of explosive gases. Inadequate ventilation can be a primary factor for deaths caused by disease of the lungs (*e.g.*, silicosis). In addition, poor working conditions from lack of adequate ventilation contribute to accidents resulting from heat stress, limited visibility, or impaired judgment from contaminants.

30 CFR 57.8520 (Ventilation plan) requires the mine operator to prepare a written plan of the mine ventilation system. The plan is required to be updated at least annually. Upon written request of the District Manager, the plan or revisions must be submitted to MSHA for review and comment.

30 CFR 57.8525 (Main fan maintenance) requires the main ventilation fans for an underground mine must be maintained according to the manufacturer's recommendations or a written periodic schedule. Upon request of an authorized representative of the Secretary, this fan maintenance schedule must be made available for review. The records assure compliance with the standard and may serve as a warning mechanism for possible ventilation problems before they occur.

## II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Ventilation Plan and Main Fan Maintenance Record. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal

information provided, will be made available on [www.regulations.gov](http://www.regulations.gov) and [www.reginfo.gov](http://www.reginfo.gov).

The public may also examine publicly available documents at DOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Sign in at the receptionist's desk on the 4th floor via the East elevator. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor's COVID–19 policy. Special health precautions may be required.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

## III. Current Actions

This request for collection of information contains provisions for Ventilation Plan and Main Fan Maintenance Record in 30 CFR 57.8520 and 30 CFR 57.8525. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

*Type of Review:* Extension, without change, of a currently approved collection.

*Agency:* Mine Safety and Health Administration.

*OMB Number:* 1219–0016.

*Affected Public:* Business or other for-profit.

*Number of Respondents:* 232.

*Frequency:* On occasion.

*Number of Responses:* 243.

*Annual Burden Hours:* 5,608 hours.

*Annual Respondent or Recordkeeper Cost:* \$0.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

[Docket No. OSHA–2022–0002]

### National Advisory Committee on Occupational Safety and Health (NACOSH); Charter Renewal

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Renewal of the NACOSH charter.

**SUMMARY:** The Secretary of Labor (Secretary) has renewed the charter for NACOSH.

#### FOR FURTHER INFORMATION CONTACT:

*For press inquiries:* Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor; telephone: (202) 693–1999; email: [meilinger.francis2@dol.gov](mailto:meilinger.francis2@dol.gov).

*For general information:* Ms. Lisa Long, Acting Deputy Director, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone: (202) 693–2049; email: [long.lisa@dol.gov](mailto:long.lisa@dol.gov).

**SUPPLEMENTARY INFORMATION:** The Secretary has renewed the NACOSH charter. The charter will expire two years from its filing date.

Congress established NACOSH in Section 7(a) of the Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651, 656) to advise, consult with, and make recommendations to the Secretary and the Secretary of Health and Human Services on matters relating to the administration of the OSH Act. NACOSH is a non-discretionary advisory committee of indefinite duration.

NACOSH operates in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2), its implementing regulations (41 CFR part 102–3), and OSHA's regulations on NACOSH (29 CFR part 1912a). Pursuant to FACA (5 U.S.C. App. 2, 14(b)(2)), the NACOSH charter must be renewed every two years.

The new charter increases the estimated annual operational costs for NACOSH by approximately 3 percent (from \$195,840 to \$201,715.20).

The new NACOSH charter is available to read or download at <http://www.regulations.gov> (Docket No. OSHA–2022–0002), the federal rulemaking portal. The charter also is available on the NACOSH page on OSHA's web page at <http://www.osha.gov> and at the OSHA Docket Office, N–3653, U.S. Department of Labor, 200 Constitution Avenue NW,
