

Education to advise the Secretary of Education on the funding and administration (including the development of regulations, and administrative policies and practices) of any program over which the Secretary has jurisdiction and includes Indian children or adults as participants or programs that may benefit Indian children or adults, including any program established under Title VII, Part A of the Elementary and Secondary Education Act. The Council submits to the Congress, not later than June 30 of each year, a report on the activities of the Council that includes recommendations the Council considers appropriate for the improvement of Federal education programs that include Indian children or adults as participants or that may benefit Indian children or adults, and recommendations concerning the funding of any such program.

One of the Council's responsibilities is to develop and provide recommendations to the Secretary of Education on the funding and administration (including the development of regulations, and administrative policies and practices) of any program over which the Secretary has jurisdiction that can benefit Indian children or adults participating in any program which could benefit Indian children. The purpose of this closed meeting is to convene the Council to review, advise, and provide recommendations to the Secretary on the procurement of services to accomplish this responsibility. Council members will discuss contract options and costs during the closed meeting. The meeting must be conducted in closed session because public discussion of procurement information would disclose independent government cost estimates and contracting options, adversely impacting the confidentiality of the contracting process and is therefore protected by exemption 9(B) of section 552b(c) of Title 5 U.S.C.
