*Description:* Although there are pull down menus, most users use "other" to describe any problems in the support system. Users frequently submit comments via this area instead of in the required Electronic Submission section. Additionally, users call the 800-number rather than submit feedback or support requests online.

*Solution:* More descriptive categories exist in both the feedback and support systems to adequately describe the problem types. Callers utilizing the 800-number service receive notification of the online capability. We completed changes to the Online Support and Feedback functions in February 2000.

We are soliciting any thoughts or ideas regarding the information provided within this notice. We welcome DMS enhancement suggestions, other potential service areas of interest, and user feedback regarding the need for a DMS training course.

Issued in Washington, DC on September 14, 2000.
