It reinforces open scientific inquiry, encourages diversity of analysis, supports studies on data collection methods and measurement, facilitates the education of new researchers, and enables the exploration of topics not envisioned by

the initial investigators. Biomedical researchers and data scientists can use the NCI cloud resources, web interface, and computational workspaces to query, submit data, analyze, and visualize data. The forms would be used to register a scientist's research data, apply for data storage, and submit a request to access and use the data. In addition to these

forms, forms related to metadata information (*i.e.*, related to the collection of the research data; how the data was collected) would be collected for some research OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden are 5,775 hours.
