

Opportunity Reconciliation Act (PRWORA) establishes a program whereby needy households apply for and receive food stamp benefits. It specifies national eligibility standards but allows State agencies certain options in administering the program. These options relate to establishing a homeless shelter deduction; establishing periodically reviewing, and updating standard utility allowances to be used in excess shelter cost computation; and establishing a methodology for offsetting costs of producing self-employment income. The Food and Nutrition Service (FNS) will collect information from state agencies on the methods used to calculate these deductions and allowances.

Need and Use of the Information: FNS will collect information from State agencies on how the various Food Stamp Program implementation options will be determined. The information collected will be used by FNS to establish quality control reviews, standards and self-employment costs.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 53.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 236.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

July 24, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information

technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB),

OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal & Plant Health Inspection Service

Title: Small Enterprise Chicken Study.

OMB Control Number: 0579-0260.

Summary of Collection: The Small Enterprise Chicken Study is an information collection by the Animal and Plant Health Inspection Service (APHIS). This study is designed to collect information on flocks with 1,000 to 19,999 chickens. In the past, APHIS poultry studies, conducted by National Animal Health Monitoring System (NAHMS) have focused on the commercial table-egg layer industry, backyard poultry, and live poultry markets. The objectives of the study are as follows: (1) To describe characteristics of operations with 1,000 to 19,999 chickens, including bird species on-hand, seasonal inventory, and marketing of free-range chickens or eggs, and organic, or other niche-market products; (2) describe movements of animals, people, waste products, vehicles, and equipment on and off operations, and estimate the distances associated with these movements; (3) examine biosecurity practices, including bird access to the outdoors. The information will be collected using NAHMS form 200.

Need and Use of the Information: The information from the study will be used to develop parameters for two disease simulation models: The North American Animal Disease Spread Model and the Multiscale Epidemiologic/Economic Simulation and Analysis Model. The information will also be used to develop background information on this segment of the poultry industry.

Description of Respondents: Farms.

Number of Respondents: 2,500.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 1.250.

National Agricultural Statistics Service

Title: Aquaculture Survey.

OMB Control Number: 0535-0150.

Summary of Collection: The primary function of the National Agricultural Statistics Service is to estimate production and stocks of agricultural food, fiber, and specialty commodities. Congress has mandated the collection of basic data for aquaculture and provides funding for these surveys. Public Law 96-362 was passed to increase the overall effectiveness and productivity of Federal aquaculture programs by improving coordination and communication among Federal agencies involved in those programs. Aquaculture is an alternative method to produce a high protein, low fat product demanded by the consumer. Aquaculture surveys provide information on trout and catfish inventory, acreage and sales as well as catfish processed.

Need and Use of the Information: The survey results is useful in analyzing changing trends in the number of commercial operations and production levels by State. The information collected is used to demonstrate the growing importance of aquaculture to officials of Federal and State government agencies who manage and direct policy over programs in agriculture and natural resources. The type of information collected and reported provides extension educators and research scientists with data that indicates important areas that require special educational and/or research efforts, such as causes for losses of fish and pond inventories of fish of various sizes. The data gathered from the various reports provide information to establish contract levels for fishing programs and to evaluate prospective loans to growers and processors.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 3,069.

Frequency of Responses: Reporting: Monthly; Semi-annually; Annually.

Total Burden Hours: 740.

National Agriculture Statistics Service

Title: Cotton Ginning Survey.

OMB Control Number: 0535-0220.

Summary of Collection: Primary function of the National Agricultural Statistics Services (NASS) is to prepare and issue state and national estimates of crop and livestock production, disposition and prices as well as specialty agricultural and environmental statistics. The Cotton Ginning Survey provides statistics concerning cotton ginning for specific dates and geographic regions and aids in

forecasting cotton production, which is required under U.S.C. Title 13, Section 42(a).

Need and Use of the Information: The ginning data collected provides (1) All segments of the cotton industry—buyers, brokers, crushers, shippers, textile firms, and researches with exact quantities of cotton available at specific geographic locations within the U.S. on a regular basis; (2) precise statistics, especially when at least 50 percent of the forecasted cotton production has been ginned in a state; and (3) final season ginning data is used to establish final production. If the information were collected less frequent, the cotton industry would be without county level quantities ginned that could seriously affect transportation costs and marketing strategies.

Description of Respondents: Business or other for-profit.

Number of Respondents: 820.

Frequency of Responses: Reporting: Other (biweekly Sept.–Jan).

Total Burden Hours: 825.

BILLING CODE 3410-20-P

DEPARTMENT OF AGRICULTURE**Food and Nutrition Service****Emergency Food Assistance Program; Availability of Commodities for Fiscal Year 2007**

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: This notice announces the surplus and purchased commodities that the Department expects to make available for donation to States for use in providing nutrition assistance to the needy under the Emergency Food Assistance Program (TEFAP) in Fiscal Year (FY) 2007. The commodities made available under this notice must, at the discretion of the State, be distributed to eligible recipient agencies for use in preparing meals, and/or for distribution to households for home consumption.

DATES: *Effective Date:* October 1, 2006.

FOR FURTHER INFORMATION CONTACT: Lillie Ragan, Assistant Branch Chief, Policy Branch, Food Distribution Division, Food and Nutrition Service, U.S. Department of Agriculture, 3101 Park Center Drive, Alexandria, Virginia 22302-1594 or telephone (703) 305-2662.

SUPPLEMENTARY INFORMATION: In accordance with the provisions set forth in the Emergency Food Assistance Act of 1983 (EFAA), 7 U.S.C. 7502, and the Food Stamp Act of 1977, 7 U.S.C. 2011, *et seq.*, the Department makes commodities and administrative funds available to States for use in providing nutrition assistance to those in need through TEFAP. In accordance with 7 CFR 251.3(h), each State's share of TEFAP commodities and administrative funds is based 60 percent on the number of low-income households within the State and 40 percent on the number of unemployed persons within the State. State officials are responsible for establishing the network through which the commodities will be used by eligible recipient agencies (ERAs) in providing nutrition assistance to those in need, and for allocating commodities and administrative funds among those agencies. States have full discretion in determining the amount of commodities that will be made available to ERAs for use in preparing meals, and/or for distribution to households for home consumption.

The types of commodities the Department expects to make available to States for distribution through TEFAP in FY 2007 are described below.

Surplus Commodities

Surplus commodities donated for distribution under TEFAP are Commodity Credit Corporation (CCC) commodities purchased under the authority of section 416 of the Agricultural Act of 1949, 7 U.S.C. 1431 (section 416) and commodities purchased under the surplus removal authority of section 32 of the Act of August 24, 1935, 7 U.S.C. 612c (section 32). The types of commodities typically purchased under section 416 include dairy, grains, oils, and peanut products. The types of commodities purchased under section 32 include meat, poultry, fish, vegetables, dry beans, juices, and fruits.

In FY 2007, the Department anticipates that there will be sufficient quantities of apple products, cherry products, grape juice, grapefruit juice, and fresh tomatoes under section 32, to support the distribution of these commodities through TEFAP. Other surplus commodities may be made available to TEFAP throughout the year. The Department would like to point out that commodity acquisitions are based on changing agricultural market conditions; therefore, the availability of commodities is subject to change.

Approximately \$10 million in surplus commodities purchased in FY 2006 are being delivered to States in FY 2007.
