These contract center operators are selected through a competitive procurement process that evaluates potential operators' technical expertise, proposed costs, past performance, and other factors, in accordance with the Competition in Contracting Act and the Federal Acquisition Regulations. Two centers are operated under demonstration grant arrangements. The remaining 24 Job Corps centers, called Civilian Conservation Centers, are operated by the U.S. Department of Agriculture Forest Service via an interagency agreement. DOL has a direct role in the operation of Job Corps, and does not serve as a pass-through agency for this program.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

On February 22, 2012, the President signed the Middle Class Tax Relief and Job Creation Act of 2012 (the Act). Section 2104 of the Act amends Title IX, SSA by adding a new section 911 (42 U.S.C. 1111), which requires the Department to issue rules, developed in consultation with an interagency workgroup established by the OMB, that establish data exchange standards for certain functions related to administration of the unemployment insurance (UI) program. The rule designates XML (eXtensible Markup Language) as the data exchange standard for the real-time applications on the Interstate Connection Network (ICON) and for State Information Data Exchange System (SIDES). States are required to conform to the XML data exchange standard for these applications. DOL's

regulations implementing this Act, codified in 20 CFR part 619, authorize this information collection.

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

Title 30 CFR 71.400 through 71.402 and 75.1712–1 through 75.1712–3 require coal mine operators to provide bathing facilities, clothing change rooms, and sanitary flush toilet facilities in a location that is convenient for use of the miners. If the operator is unable to meet any or all of the requirements, the operator may apply for a waiver. Title 30 CFR 71.403, 71.404, 75.1712–4, and 75.1712–5 provide procedures by which an operator may apply for and be granted a waiver. Applications must be submitted to the MSHA District Manager for the district in which the mine is located and must contain the name and address of the mine operator, name and location of the mine, and a detailed statement of the grounds on which the waiver is requested.

Waivers for surface mines may be granted by the District Manager for a period not to exceed one year. If the waiver is granted, surface mine operators may apply for annual extensions of the approved waiver. Waivers for underground mines may be granted by the District Manager for the period of time requested by the underground mine operator as long as the circumstances that were used to justify granting the waiver remain in effect. Waivers are not transferable to a successor coal mine operator.
