

THE NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

Institute of Museum and Library Services

Submission for OMB Review, Comment Request, Proposed Collection: IMLS Collections Assessment for Preservation Forms

AGENCY: Institute of Museum and Library Services, National Foundation on the Arts and the Humanities.

ACTION: Submission for OMB review, comment request.

SUMMARY: The Institute of Museum and Library Services announces the following information collection has been submitted to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. This notice proposes the clearance of seven IMLS Collections Assessment for Preservation Forms. A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **FOR FURTHER INFORMATION CONTACT** section below on or before April 25, 2021.

OMB is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

ADDRESSES: Comments should be sent to Office of Information and Regulatory

Affairs, Attn.: OMB Desk Officer for Education, Office of Management and Budget, Room 10235, Washington, DC 20503, (202) 395-7316.

FOR FURTHER INFORMATION CONTACT: Christopher J. Reich, Chief Administrator, Office of Museum Services, Institute of Museum and Library Services, 955 L'Enfant Plaza North SW, Suite 4000, Washington DC 20024-2135. Mr. Reich can be reached by telephone at 202-653-4568, by email at creich@imls.gov, or by teletype (TTY/TDD) for persons with hearing difficulty at 202-653-4614.

SUPPLEMENTARY INFORMATION: The Institute of Museum and Library Services is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. Our vision is a nation where museums and libraries work together to work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

Current Actions: This notice proposes the clearance of Collections Assessment for Preservation Forms. The 60-day Notice was published in the **Federal Register** on January 13, 2022 (86 FR 2704). The agency received no comments under this notice.

The Collections Assessment for Preservation (CAP) program allows up to two qualified conservators, who serve as assessors, to study of all of a museum's collections, buildings and building systems, as well as its policies and procedures relating to collections care. Participants who complete the program receive a report prepared by the assessor(s) with prioritized recommendations to improve collections care.

The purpose of this Notice is to solicit comments concerning the three-year approval of the seven forms necessary to support the administration and implementation of the IMLS Collections Assessment for Preservation (CAP) program. These are an Application Form to collect information about museums that wish to be considered for enrollment in the program; an Assessor Application Form to information necessary to determine whether potential conservators/assessors have sufficient qualifications to participate in the program; a Site Questionnaire to provide more detailed information about a museum to prepare for its assessment once it is accepted for participation in the program; an Application Feedback Form for

museums to share information about how they heard about the program and to provide feedback about the application process; an Assessor Feedback Form for conservators/assessors to share their experiences with the CAP assessment; a Participant Feedback Form to help IMLS and the program administrator gain a better understanding of the experience of museums after participating in the program and to help improve the program for future years; and a Follow-Up Survey for CAP participants to share their longer-term experiences as a result of program participation to help IMLS and the program administrator make improvements over time. These forms are used by the administrator of the CAP program and are necessary to support the management of the program and ongoing improvements to the services it provides. These are web-based forms that can be completed online via application software and SurveyMonkey, allowing faster response and reducing participant burden. Paper versions of the forms can be made available for small museums that may have limited or no access to the necessary technology.

Each application cycle to the CAP program engages new participating museums, therefore requiring the use of the forms for every participant. Assessor Application Forms need only be filled out once by conservators/assessors who may participate in multiple application cycles. Assessor Feedback Forms are completed by each assessor each year.

The CAP program could not function effectively without application forms to select eligible participants and site questionnaires to prepare them for the assessors' site visit. The feedback forms are necessary to gather information that is used to improve program services each year. Each of these forms has been reviewed by a steering committee of subject matter experts to ensure that they information collected is both clear and necessary to support the program.

Agency: Institute of Museum and Library Services.

Title: Collections Assessment for Preservation Forms.

OMB Control Number: 3137-NEW.

Agency Number: 3137.

Affected Public: Museum professionals and professional conservators.

Total Number of Respondents: 710.

Frequency of Response: Once.

Average Hours per Response: 1.44.

Total Burden Hours: 950.

Total Annualized Capital/Startup

Costs: n/a.

Total Annual Cost Burden: \$27,008.50.

Total Annual Federal Costs:
\$4,721.82.

Dated: March 22, 2021.

Kim Miller,

*Senior Grants Management Specialist,
Institute of Museum and Library Services.*

BILLING CODE 7036-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-29462; NRC-2021-0080]

Department of the Navy; Environmental Assessment and Finding of No Significant Impact

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering amending Materials License No. 45-23645-01NA to authorize extending the time period for completing decommissioning and requesting termination of the Department of the Navy's permitted activities and has prepared an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) in support of this action.

DATES: The Technical Evaluation Report referenced in this document is available on March 25, 2021.

ADDRESSES: Please refer to Docket ID NRC-2021-0080 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2021-0080. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-

415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Ronald A. Burrows, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-6443, email: Ronald.Burrows@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of an amendment of License No. 45-23645-01NA, issued to the Department of the Navy (DON). Therefore, as required by Part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC performed an EA. Based on the results of the EA that follows, the NRC has determined not to prepare an environmental impact statement for the license amendment and is issuing a FONSI.

II. Environmental Assessment

Introduction

In accordance with License Condition, 21.W of NRC Radioactive Materials License No. 45-23645-01NA (Master Materials License (MML)), the DON incorporates a permitting program for the use of licensed material. Individual entities that are subject to this permitting program are called permittees. Each permittee associated with this MML, consistent with the requirements in 10 CFR 30.36(h), is required to complete decommissioning as soon as practicable but no later than 24 months following the initiation of decommissioning.

The DON has requested approval to extend the 24-month time period specified in 10 CFR 30.36(h)(1) and (2) for completing decommissioning and requesting termination of permitted activities under its MML beyond the 24-month time limit for decommissioning. The NRC may approve such a request consistent with the criteria specified in 10 CFR 30.36(i).

Description of the Proposed Action

The proposed action would amend the DON's MML to allow an alternative schedule for decommissioning and requesting termination of permitted activities. By letter dated September 15, 2020, (ADAMS Accession No. ML20260H015) the DON requested a 10-year time limit be applied to the requirements in 10 CFR 30.36(h)(1) and (2) with no other stipulations. As a result of the information submitted by the DON to support its request, the NRC staff only analyzed potential environmental issues related to a shorter 5-year time limit.

During the review of the DON's request, the NRC staff identified some concerns related to the sites where groundwater could be implicated in the decontamination and termination of a permit. In response to this information, the NRC proposed to limit the extension of decontamination and termination of permitted site to those where no potential for groundwater contamination exists through a license condition. The DON agreed to this condition and its limitation in a letter dated February 6, 2021 (ADAMS Accession No. ML21048A250). As a result, the NRC staff's analysis of potential environmental impacts was limited to the 5-year time limit of the decommission and termination process for sites without the potential to involve groundwater. The NRC staff, however, is not taking a position and did not perform an assessment of potential environmental impacts from extending decommissioning and termination of permitted sites with potential groundwater concerns to a 5-year time limit.

Purpose and Need for the Proposed Action

The purpose of the proposed action is to align the DON's responsibilities for timely decommissioning and termination of permits as specified in 10 CFR 30.36(h)(1) and (2) with the Federal budgeting process. This purpose is consistent with the guidance for operators of Federal facilities in NUREG-1757 (see Section 2.6.1) (ADAMS Accession No. ML12048A683).

The need for the proposed action is to comply with NRC regulations. The NRC is fulfilling its responsibilities under the Atomic Energy Act to make a decision on a proposed license amendment for an alternative schedule for completion of decommissioning and permit termination that ensures protection of the public health and safety and environment.
