BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service****Notice of Availability of the Draft Comprehensive Conservation Plan and Environmental Assessment for the Long Island National Wildlife Refuge Complex**

AGENCY: Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability of the Long Island National Wildlife Refuge (NWR) Complex Draft Comprehensive Conservation Plan (CCP) and Environmental Assessment (EA). It describes how we intend to manage the Long Island NWR Complex during the next 15 years. We prepared this Draft CCP/EA in conformance with the National Environmental Policy Act (NEPA) and the National Wildlife Refuge System Administration Act, as amended.

DATES: Submit comments on or before July 19, 2006 to the Northeast Regional Office (see **ADDRESSES**). Dates for the public meetings are:

Monday, June 26, 2006, at Dowling College (Brookhaven Campus—Room

A209), 1300 William Floyd Parkway, Shirley, New York.

Tuesday, June 27, 2006, at Doubleday Babcock Senior Center, 45 E. Main Street, Oyster Bay, New York.

Wednesday, June 28, 2006, at Morton NWR, 784 Noyak Road, Sag Harbor, New York.

All meetings will be held from 7 p.m. to 9 p.m., with Open House sessions from 6 p.m. to 7 p.m. We will accept oral and written comments at these meetings.

ADDRESSES: Submit comments or request copies of this Draft CCP/EA by mail to Thomas Bonetti, U.S. Fish and Wildlife Service, Northeast Regional Office, 300 Westgate Center Drive, Hadley, Massachusetts 01035-9589, or by electronic mail to northeastplanning@fws.gov. You may also download the document at <http://library.fws.gov/ccps.htm>, or <http://www.fws.gov/northeast/longislandrefuges/>.

FOR FURTHER INFORMATION CONTACT: Thomas Bonetti, 413-253-8307.

SUPPLEMENTARY INFORMATION: The Long Island NWR Complex includes Amagansett, Conscience Point, Elizabeth A. Morton, Oyster Bay, Seatuck, Target Rock, and Wertheim NWRs, along with the Lido Beach Wildlife Management Area and the Sayville Unit. The Long Island NWR Complex spans over 6,200 acres in Suffolk and Nassau Counties of New York State. Management focuses on migratory birds, threatened and endangered species, and their habitats.

This Draft CCP/EA describes the desired future conditions for the refuges, and identifies goals, long-range objectives, and strategies for achieving the purposes for which these refuges were established. The document poses three management alternatives:

Alternative A is our "No Action" alternative required by NEPA.

Alternative B, the "Proposed Action" alternative, will increase the protection and management of migratory wildlife, endangered and threatened species, and other species of concern. This alternative will also increase the number and quality of wildlife-dependent recreational opportunities, and allow us to utilize the Long Island NWR Complex's proximity to New York City and urban communities to better promote National Wildlife Refuge System principles and improve public support for national wildlife refuges.

Alternative C proposes less emphasis on public use to further protect threatened and endangered species, control invasive species, and enforce regulations. This alternative will focus

on maintaining public use infrastructure such as nature trails and information kiosks, while de-emphasizing interactive programs.

With the publication of this notice, the public is encouraged to send written comments regarding this Draft CCP/EA. The public will also have opportunities to provide comments at public meetings or open house meetings. Places, dates and times of the meetings will also be advertised locally and at our Web site, <http://www.fws.gov/northeast/longislandrefuges/>. After the 30-day review and comment period ends on July 19, 2006, we will analyze, address, and consider all comments in revised planning documents.

All comments, including names and addresses, become part of the official public record. Requests for the public record of this plan will be handled in accordance with the Freedom of Information Act, the Council on Environmental Quality's NEPA regulations, and other Service and Departmental policies and procedures.

Dated: June 8, 2006.

Marvin E. Moriarty,
Regional Director, U.S. Fish and Wildlife Service, Hadley, MA 01035-9589.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability, Draft Restoration Plan

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), on behalf of the Department of the Interior (DOI) as the sole natural resource trustee, announces the release for public review of the Draft Restoration Plan (RP) for the Cortese Landfill Superfund Site (Site). As a result of remedial activities and the off-site migration of Site-related contaminants, 1.6 acres of wetland were destroyed and/or degraded. Adversely affected natural resources include waterfowl, wading birds, hawks, woodpeckers, swallows, migratory songbirds, invertebrates, reptiles, and amphibians. In addition, the section of the Upper Delaware River watershed near the Site hosts the largest population of wintering bald eagles in the Northeast. The embayment provides feeding and/or spawning habitat for forage fish, American shad, striped bass, and American eel. The funds available

from this settlement for restoration activities total approximately \$85,000. The restoration project proposed in the Draft RP involves wet meadow/wetland restoration and protection.

The Draft RP presents a preferred alternative consisting of a restoration project that compensates for impacts to natural resources caused by contaminant releases and remedial activities associated with the Site.

DATES: Written comments must be submitted on or before July 19, 2006.

ADDRESSES: Requests for copies of the Draft RP may be made to: U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045.

Written comments or materials regarding the Draft RP should be sent to the same address.

FOR FURTHER INFORMATION CONTACT: Ken Karwowski, Environmental Contaminants Program, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045. Interested parties may also call 607-753-9334 or e-mail Ken_Karwowski@fws.gov for further information.

SUPPLEMENTARY INFORMATION: In May 1996, a natural resource damage settlement was achieved for the Site. The Service, on behalf of the DOI, was the sole settling Trustee. The funds available from the settlement for restoration activities total approximately \$85,000.

The Draft RP is being released in accordance with the CERCLA of 1980 as amended, commonly known as Superfund (42 U.S.C. 9601 *et seq.*), the Natural Resource Damage Assessment Regulations found at 43 CFR, part 11, and the National Environmental Policy Act. It is intended to describe the Trustee's proposal to restore natural resources injured at the Site and evaluate the potential impacts of the project.

The Draft RP describes a number of habitat restoration and protection alternatives and discusses the environmental consequences of each. The restoration effort with the greatest potential to restore natural resources and services that were injured by contaminants or remedial activities is preferred. Based on an evaluation of the various restoration alternatives, the preferred alternative consists of a restoration project involving wet meadow/wetland restoration and protection.

Interested members of the public are invited to review and comment on the Draft RP. Copies of the Draft RP are available for review at the Service's New
