

comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received in writing by February 1, 2001.

ADDRESSES: Written comments should be addressed to Denise Baker, Environmental Protection Specialist (OAQ-107), Office of Air Quality, at the EPA Regional Office listed below. Copies of Washington's submittal, and other supporting information used in developing this action, are available for inspection during normal business hours at the U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington, 98101. Interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

FOR FURTHER INFORMATION CONTACT:

Denise Baker, Office of Air Quality (OAQ-107), EPA, 1200 6th Avenue, Seattle, WA 98101, (206) 553-8087.

SUPPLEMENTARY INFORMATION: For additional information, see the Direct Final rule which is located in the Rules section of this **Federal Register**.

Dated: December 15, 2000.

Ronald A. Kreizenbeck,

Acting Regional Administrator, Region 10.

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permits for PacifiCorp's Jim Bridger and Naughton Coal-Fired Power Plants, Wyoming

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to state operating permit.

SUMMARY: This document announces that the EPA Administrator has partially granted and partially denied a petition to object to two state operating permits issued by the Wyoming Department of Environmental Quality, Air Quality Division, to PacifiCorp for its Jim Bridger plant and its Naughton plant in Wyoming. This order constitutes final

action on the petition submitted by the Wyoming Outdoor Council. Pursuant to section 505(b)(2) of the Clean Air Act (Act) and 40 CFR 70.8(d), interested parties may seek judicial review of those portions of the petition which EPA denied in the United States Court of Appeals for the appropriate circuit within 60 days of this decision under section 307 of the Act.

ADDRESSES: Copies of the final order, the petition and all other supporting information are on file at the: U.S. Environmental Protection Agency, Region VIII, Air and Radiation Program, 999 18th Street—Suite 300, Denver, Colorado, 80202. All documents will be available for review at the U.S. EPA Region VIII office Monday through Friday from 8:00 a.m. to 5:00 p.m. (excluding federal holidays). The final order is also available electronically at <http://www.epa.gov/region07/programs/artd/air/title5/t5memos/woc020.pdf>.

FOR FURTHER INFORMATION CONTACT:

Monica Morales, Air Technical Assistance Unit, EPA Region VIII, telephone (303) 312-6936, e-mail monica.morales@epa.gov. Interested parties may also contact the Wyoming Department of Environmental Quality, Air Quality Division, 122 West 25th Street, Cheyenne, Wyoming 82002.

SUPPLEMENTARY INFORMATION: The Clean Air Act affords EPA the opportunity for a 45-day period to review, and object to as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to state operating permits if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

The Wyoming Outdoor Council submitted a petition to the Administrator on June 30, 1998, seeking EPA's objection to the operating permits issued to PacifiCorp for its Jim Bridger and Naughton coal-fired power plants. The petitioner maintains that the PacifiCorp operating permits are inconsistent with the Act because the permits: (1) fail to require continuous opacity monitoring for Naughton unit 3 and Jim Bridger units 1, 2, and 3 as required by the federal acid rain regulations, 40 CFR 75.14(b); and (2) provide improper exemptions to State

Implementation Plan ("SIP") emission limits by allowing excess emissions due to malfunctions, abnormal conditions, or breakdowns that are beyond the control of the operator.

The order partially granting and partially denying this petition explains the reasons behind EPA's conclusions that (1) the permits fail to meet the continuous opacity monitoring requirement for the four coal-fired units and otherwise lack monitoring sufficient to assure compliance with the permit's terms and conditions, and (2) the petitioner failed to demonstrate that EPA has a basis for objecting to the exemption from SIP emission limits due to malfunctions, abnormal conditions or breakdowns.

Because the Order is a locally or regionally applicable action of the Administrator, judicial review of this decision under section 307(b)(1) of the Clean Air Act (the Act) may be sought only by the filing of a petition for review in the United States Court of Appeals for the appropriate regional circuit within 60 days from the date on which this notice is published in the **Federal Register**. Under section 307(b)(2) of the Act, this decision shall not be subject to later judicial review in civil or criminal proceedings for enforcement.

Dated: December 20, 2000.

Jack W. McGraw,

Acting Regional Administrator, Region VIII.

Hazardous Waste Management Program: Final Authorization of State Hazardous Waste Management Program Revisions for State of Louisiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule and request for comment.

SUMMARY: The EPA (also, "the Agency" in this preamble) is proposing to grant final authorization to the State of Louisiana Department of Environmental Quality for its hazardous waste program revisions, specifically, revisions needed to meet the Resource Conservation and Recovery Act Cluster IX, which contains Federal rules promulgated between July 1, 1998 to June 30, 1999. In the "Rules and Regulations" section of this **Federal**

Register (FR), EPA is authorizing the State's program revisions as an immediate final rule without prior proposal because the EPA views this action as noncontroversial and anticipates no adverse comments. The Agency has explained the reasons for this authorization in the preamble to the immediate final rule. If EPA does not receive adverse written comments, the immediate final rule will become effective and the Agency will not take further action on this proposal. If EPA receives no adverse comments, it will not take further action on this proposal. If EPA receives adverse written comments, a second **Federal Register** document will be published before the time the immediate final rule takes effect. The second document may withdraw the immediate final rule or identify the issues raised, respond to the comments and affirm that the immediate final rule will take effect as scheduled. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before February 1, 2001.

ADDRESSES: Mail written comments to Alima Patterson, Region 6, Regional Authorization Coordinator, Grants and Authorization Section (6PD-G), Multimedia Planning and Permitting Division, at the address shown below. You can examine copies of the materials submitted by the State of Louisiana during normal business hours at the following locations: EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, (214) 665-6444; or Louisiana Department of Environmental Quality, H.B. Garlock Building, 7290 Bluebonnet, Baton Rouge, Louisiana 70810, (225) 765-0617.

FOR FURTHER INFORMATION CONTACT: Alima Patterson (214) 665-8533.

SUPPLEMENTARY INFORMATION: For additional information, please see the immediate final rule published in the "Rules and Regulations" section of this **Federal Register**.

Dated: December 7, 2000.

Myron O. Knudson,
Acting, Regional Administrator, Region 6.

[FRL-6924-6]

Hazardous Waste Management Program: Final Authorization of State Hazardous Waste Management Program Revisions for State of Oklahoma

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule and request for comment.

SUMMARY: The State of Oklahoma has applied for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA), portions of Cluster VIII, and entire Cluster IX which contains Federal rules promulgated from July 1, 1998, to June 30, 1999. The EPA proposes to grant final authorization to the State of Oklahoma. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. The EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. EPA have explained the reasons for this authorization in the preamble to the immediate final rule. If EPA does not receive adverse written comments, the immediate final rule will become effective and the Agency will not take further action on this proposal. If EPA receives adverse written comments, second **Federal Register** document will be published before the time the immediate final rule takes effect. The second document may withdraw the immediate final rule before it takes effect and a separate document in the proposed rules section of this **Federal Register** will serve as a proposal to authorize the changes or the document may identify the issues raised, respond to comments, and affirm that the immediate final rule will take effect March 5, 2001. Unless we get written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for

comment. If you want to comment on this action, you must do so at this time.

DATES: Written comments must be received on or before February 1, 2001.

ADDRESSES: Mail written comments to Alima Patterson, Region 6, Regional Authorization Coordinator, Grants and Authorization Section (6PD-G), Multimedia Planning and Permitting Division, at the address shown below. You can examine copies of the materials submitted by the State of Oklahoma during normal business hours at the following locations: EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, (214) 665-6444; or Oklahoma Department of Environmental Quality, 707 North Robinson, Oklahoma City, Oklahoma 73101-1677.

FOR FURTHER INFORMATION CONTACT: Alima Patterson (214) 665-8533.

SUPPLEMENTARY INFORMATION: For additional information, please see the immediate final rule published in the "Rules and Regulations" section of this **Federal Register**.

Dated: December 7, 2000.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1 and 90

[WT Docket No. 99-87; RM-9332; RM-9405; RM-9705; FCC 00-403]

Revised Competitive Bidding Authority

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document seeks comment on whether certain rule changes would be in the public interest. Specifically, the Commission seeks comment on whether it should modify the equipment rules for non-Public Safety licensees operating in the private land mobile radio bands between 222 MHz and 896 MHz by prohibiting the manufacture or importation of equipment that does not meet certain efficiency standards by certain dates. The Commission also seeks comment as to whether Business and Industrial/Land Transportation category (BI/LT) licensees in the 896-901/935-940 MHz (900 MHz) band should be allowed to assign or transfer their spectrum to CMRS licensees for use in CMRS operations, or to modify the licenses to CMRS use in their own systems.
