SUPPLEMENTARY INFORMATION:

Title: State Right-of-Way Operations Manuals, OMB Control Number 2125-0586.

Background: It is the responsibility of each State Department of Transportation (State) to acquire, manage and dispose of real property in compliance with the legal requirements of State and Federal laws and regulations. Part of providing assurance of compliance is to describe in a right-of-way procedural (operations) manual the organization, policies and procedures of the State to such an extent that these guide State employees, local acquiring agencies, and contractors who acquire and manage real property that is used for a federally funded transportation project. Procedural manuals assure the FHWA that the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act (Uniform Act) will be met. The State responsibility to prepare and maintain an up-to-date right-of-way procedural manual is set out in 23 CFR 710.201(c). The regulation allows States flexibility in determining how to meet the manual requirement. This flexibility allows States to prepare

manuals in the format of their choosing, to the level of detail necessitated by State complexities. Each State decides how it will provide service to individuals and businesses affected by Federal or federally-assisted projects, while at the same time reducing the burden of government regulation. States are required to update manuals to reflect changes in Federal requirements for programs administered under Title 23 U.S.C. The State manuals may be submitted to FHWA electronically or made available by posting on the State web site.

Respondents: State Departments of Transportation (52, including the District of Columbia and Puerto Rico).

Frequency: Once initially, then States update their operations manuals for review.

Estimated Average Burden per Response: 75 hours per respondent.

Estimated Total Annual Burden Hours: 75 hours for each of the 52 State Departments of Transportation. The total is 3,900 burden hours annually.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA oversight of the right-of-way program; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: February 26, 2010.

Juli Huynh,

Chief, Management Programs and Analysis Division.

The FAA will continue to develop and maintain a list of qualified AC 90-101 RNP SAAAR Approval Consultants to assist in the approval process and expedite operator applications.

(a) *Eligibility Requirements:* To be identified as an FAA-qualified RNP SAAAR Approval Consultant, the following qualifications must be met:
