[Docket Number FRA-2025-0035]

Notice of Petition for Waiver of Compliance

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter received March 3, 2025, NHRR petitioned FRA for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 230 (Steam Locomotive Inspection and Maintenance Standards). FRA assigned the petition Docket Number FRA-2025-0035.

Specifically, NHRR seeks relief from § 230.17(a), *One thousand four hundred seventy-two (1,472) service day inspection*, which requires a steam locomotive's "entire boiler" to be inspected after 1,472 service days or 15 years, whichever is earlier. NHRR, a tourist railroad, seeks to extend for twenty calendar days the deadline for its 15-year inspection, from December 7, 2026, to December 27, 2026, which would allow locomotive NHRR 40 to operate Santa Trains through the end of the 2026 holiday season. In its petition, NHRR explains that the twenty-day extension is a "period critical to [NHRR's] financial stability" and that the absence of NHRR 40 would be "detrimental to [its] operations." The requested deadline extension, which would include 18 planned service days, would enable NHRR to fund the expense of the 15-year inspection, which would be completed after December 27, 2026, and before the next planned operation in 2027.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by June 12, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

FOR FURTHER INFORMATION CONTACT: Scott Johnson, Railroad Safety Specialist, FRA Signal, Train Control, and Crossings Division, telephone: 406-210-3608, email: scott.j.johnson@dot.gov.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter received March 3, 2025, AAR, on behalf of its members, petitioned FRA for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236 (Rules, Standards, and Instructions Governing the Installation, Inspection, Maintenance, and Repair of Signal and Train Control Systems, Devices, and Appliances). FRA assigned the petition Docket Number FRA-2014-0085.

Specifically, AAR seeks an extension of relief from §§ 236.586(a), *Daily or after trip test*, and 236.588, *Periodic test*, to waive the requirement to perform after trip tests and to increase the time between periodic tests from not more than 92 days to not more than 184 days. In its petition, AAR explains that the waiver has allowed its members to perform signal inspections per § 236.588 in conjunction with the locomotive inspections required by § 229.23(b), *Periodic inspection: general*, which increases operational efficiency, while not having “had any corresponding negative impact on railroad safety.”

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.
