FEDERAL COMMUNICATIONS COMMISSION**Public Information Collections Approved by Office of Management and Budget**

September 3, 2010.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

FOR FURTHER INFORMATION CONTACT: Contact Michael C. Smith, Federal Communications Commission, (202) 418-0584 or via the Internet at MichaelC.Smith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1135.

Expiration Date: 8/31/2013.

Title: Rules Authorizing the Operation of Low Power Auxiliary Stations (including Wireless Microphones).

Form No.: N/A.

Estimated Annual Burden: 127,500 responses; 31,875 total annual hours; .25 hours per response.

Needs and Uses: In the Report and Order¹ in WT Docket No. 08-166, WT Docket No. 08-167, ET Docket No. 10-24, FCC 10-16, adopted January 14, 2010 and released on January 15, 2010, the Federal Communications Commission ("Commission") modified the rules authorizing the operation of low power auxiliary stations (wireless microphones). The Report and Order requires all wireless microphones to cease operations in the 700 MHz Band (698-806 MHz) no later than June 12, 2010, making the band available for use by public safety entities such as police, fire, emergency services, and commercial licensees.

To effectuate the Commission's plan to clear wireless microphones from the 700 MHz Band, the Report and Order provides an early clearing mechanism for the 700 MHz Band; requires that any person who manufactures wireless microphones or sells, leases, or offers them for sale or lease must display a disclosure at the point of sale or lease that informs consumers of the conditions that apply to the operation of wireless microphones in the core TV bands; and requires any person who manufactures, sells, leases, or offers for sale or lease, wireless microphones capable of operating in the 700 MHz Band that are destined for non U.S. markets, to include labeling that makes clear that the devices cannot be operated in the United States.

On January 22, 2010, the Commission requested emergency approval of the information collection requirements from the Office of Management and Budget (OMB).² On February 17, 2010, the Commission received OMB approval.³ The OMB control number for this collection is 3060-1135.

¹ Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698-806 MHz Band; Public Interest Spectrum Coalition, Petition for Rulemaking Regarding Low Power Auxiliary Stations, Including Wireless Microphones, and the Digital Television Transition; Amendment of Parts 15, 74 and 90 of the Commission's Rules Regarding Low Power Auxiliary Stations, Including Wireless Microphones, WT Docket Nos. 08-166, 08-167, ET Docket No. 10-24, *Report and Order and Further Notice of Proposed Rulemaking*, FCC 10-16 (rel. January 15, 2010); 75 FR 3622 (January 22, 2010).

² See Notice of Public Information Collection(s) Being Submitted for Review and Approval to the Office of Management and Budget (OMB), Comments Requested, 75 FR 3731 (January 22, 2010).

³ See Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698-806 MHz Band; Public Interest Spectrum Coalition, Petition for Rulemaking Regarding Low Power Auxiliary Stations, Including Wireless Microphones, and the Digital Television Transition; Public Information Collection Approved by Office of Management and Budget, 75 FR 9113 (March 1, 2010).

After publishing notice of its intent to revise this collection,⁴ the Commission submitted its request for revision to OMB on July 20, 2010. The revision was requested to both extend the expiration date of the collection and to eliminate the now obsolete early clearing mechanism. This revised collection, without the early clearing mechanism and its associated responses and burden hours, is identical to the previous collection in all other respects. The Office of Management and Budget approved this revised collection on August 27, 2010.

As noted previously, this information collection will be used to ensure that these microphones do not continue to be used or continue to be made available for use in the United States in the 700 MHz Band, in contravention of the steps taken by the Commission to make the 700 MHz Band available for use by public safety entities and commercial licensees, and to provide them a home in the core TV spectrum.

The Commission recognizes that a significant number of currently unauthorized users of wireless microphones and other low power auxiliary stations in the 700 MHz Band may have to purchase new equipment to transition into the core TV bands pursuant to our temporary waivers. Our intention in requiring display of the Consumer Disclosure is to make certain that these users understand their rights and obligations regarding the use of low power auxiliary stations in the core TV bands. This Consumer Disclosure should help assure that purchasers of low power auxiliary stations operate their devices in a manner in compliance with our rules and policies and thereby do not cause interference to authorized radio services in the core TV bands.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

September 10, 2010.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501 – 3520. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before November 15, 2010. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via email to Nicholas_A_Fraser@omb.eop.gov and to the Federal Communications Commission via email to PRA@fcc.gov and Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Cathy Williams on (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0404.

Title: Application for an FM Translator or FM Booster Station License, FCC Form 350.

Form Number: FCC Form 350.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; State, local or Tribal government.

Number of Respondents and Responses: 350 respondents and 350 responses.

Frequency of Response: On occasion reporting requirement.

Estimated Time per Response: 1.0 hours.

Total Annual Burden: 350 hours.

Total Annual Cost: \$26,250.

Obligation to Respond: Required to obtain and retain benefits. The statutory authority for this information collection is contained in Sections 154(i), 307, 308 and 309 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: Licensees and permittees of FM Translator or FM Booster stations are required to file FCC Form 350 to obtain a new or modified station license. The data is used by FCC staff to confirm that the station has been built to terms specified in the outstanding construction permit. Data is then extracted from FCC 350 for inclusion in the subsequent license to operate the station.
