SUPPLEMENTARY INFORMATION:**I. Background**

Title 30 CFR sections 56.19057 and 57.19057 require the annual examination and certification of a hoist operator's fitness. The safety of all metal and nonmetallic miners riding hoist conveyances is dependent upon the attentiveness and physical capabilities of the hoist operator, in routine and emergency evacuations. Improper movement, overspeed, and overtravel of a hoisting conveyance can result in serious physical harm or death to all

passengers. While small mine operators are likely to have fewer hoists and hoist operators, Congress intended that the Mine Act be enforced at all mining operations within its jurisdiction regardless of size and that information collection and record keeping requirements be consistent with efficient and effective enforcement of the Mine Act. However, Congress did recognize that small operations may face problems in complying with some Mine Act provisions. Section 103(e) of the Mine Act directs the Secretary of Labor not to impose an unreasonable burden on small businesses when obtaining any information under the Mine Act. This information collection does not have a significant impact on a substantial number of small entities.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Hoist Operator's Physical Fitness. MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request may be viewed on the Internet by accessing the MSHA Home Page (<http://www.msha.gov>) and selecting "Statutory and Regulatory Information" then "Paperwork Reduction Act Submissions" (<http://www.msha.gov/regspwork.htm>) or by contacting the employee listed above in the **FOR FURTHER INFORMATION CONTACT** section of this notice for a hard copy.
