

and all of the legacy support in 2023 and beyond for these purposes.

To address a concern that budgets and deployment plans for 2021 are largely complete, which could make it difficult for some competitive ETCs to achieve the 2021 support usage requirement, the Commission adopted a rule that affords such competitive ETCs the flexibility to use less than one-third of their legacy support in 2021 and make up for any shortfall in 2021 by proportionally increasing the requirement in 2022 (above the two-thirds of its support the competitive ETC is required to spend on 5G in that year). See 47 CFR 54.322(c)(4).

In order to take advantage of this flexibility, a competitive ETC receiving legacy support for mobile wireless services must submit a certification in which it (1) provides information regarding the service area(s) for which it and any affiliated mobile competitive ETC(s) receive legacy support and the annual amount of support they receive in each area; (2) indicates the total amount of legacy high-cost support to be spent on the deployment, maintenance, and operation of mobile networks that provide 5G service in calendar year 2021 across the identified service areas; and (3) certifies that any 2021 spending shortfall will be made up in 2022. Only those competitive ETCs receiving legacy high-cost support for mobile wireless services that wish to avail themselves of the flexibility concerning their 2021 and 2022 legacy high-cost support usage requirements will be required to respond to this information collection.

The certification will be used by the Commission to identify how much a competitive ETC that chooses to avail itself of the flexibility concerning its 2021 and 2022 legacy high-cost support usage requirements will spend on 5G in 2021 and the spending shortfall it must make up in 2022, and to confirm the competitive ETC's commitment to make up its 2021 spending shortfall in 2022 in accordance with its certification and the Commission's rules.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6715-01-P

FEDERAL MARITIME COMMISSION

Agency Information Collection Activities: 60-Day Public Comment Request

AGENCY: Federal Maritime Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of our continuing effort to reduce paperwork and respondent burden, and as required by the Paperwork Reduction Act of 1995, the Federal Maritime Commission (Commission) invites comments on the continuing information collection (extension with no changes) listed below in this notice.

DATES: Written comments must be submitted on or before June 28, 2021.

ADDRESSES: Submit comments for the proposed information collection request to Karen V. Gregory, Managing Director at email: omd@fmc.gov. Please refer to the assigned OMB control number on any correspondence submitted. The FMC will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT:

Copies of the information collection and instruction, or copies of any comments received, may be obtained by contacting Donna Lee at omd@fmc.gov.

SUPPLEMENTARY INFORMATION:

Request for Comments

The Commission, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on the continuing information collection listed in this notice, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Comments submitted in response to this notice will be included or summarized in our request for Office of Management and Budget (OMB) approval of the relevant information collection. All comments are part of the public record and subject to disclosure. Please do not include any confidential or inappropriate material in your comments. We invite comments on: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Information Collection Open for Comment

Title: 46 CFR part 565—Controlled Carriers.

OMB Approval Number: 3072-0060 (Expires September 30, 2021).

Abstract: 46 U.S.C. 40701-40706 requires that the Commission monitor the practices of controlled carriers to ensure that they do not maintain rates or charges in their tariffs and service contracts that are below a level that is just and reasonable; nor establish, maintain, or enforce unjust or unreasonable classifications, rules, or regulations in those tariffs or service contracts that result or are likely to result in the carriage or handling of cargo at rates or charges that are below a just and reasonable level. 46 CFR part 565 establishes the method by which the Commission determines whether a particular ocean common carrier is a controlled carrier subject to 46 U.S.C. 40701-40706. When a government acquires a controlling interest in an ocean common carrier, or when a controlled carrier newly enters a United States trade, the Commission's rules require that such a carrier notify the Commission of these events.

Current Actions: There are no changes to this information collection, and it is being submitted for extension purposes only.

Type of Review: Extension.

Needs and Uses: The Commission uses these notifications in order to effectively discharge its statutory duty to determine whether a particular ocean common carrier is a controlled carrier and therefore subject to the requirements of 46 U.S.C. 40701–40706.

Frequency: The submission of notifications from controlled carriers is not assigned to a specific time frame by the Commission; they are submitted as circumstances warrant. The Commission only requires notification when a majority portion of an ocean common carrier becomes owned or controlled by a government, or when a controlled carrier newly begins operation in any United States trade.

Type of Respondents: Controlled carriers are ocean common carriers which are owned or controlled by a government.

Number of Annual Respondents: The Commission cannot anticipate when a new controlled carrier may enter the United States trade or when ownership or control of a carrier will change so that notification is required. Over the past three years, the Commission has received, on average, fewer than one notification per year.

Estimated Time per Response: The estimated time for each notification is 2 hours.

Total Annual Burden: For purposes of calculating total annual burden, the Commission assumes one response annually. The Commission thus estimates the total annual burden to be 2 hours (1 response × 2 hours per response).

Rachel E. Dickon,
Secretary.

BILLING CODE P

changes to continue collecting data for the study Variations in Implementation of Quality Interventions (VIQI). In addition to extending data collection, OPRE proposes to update burden estimates to accommodate a different sample size of centers, administrators, teachers, and coaches; to revise data collection instruments and activities for the impact evaluation and process study in line with lessons learned during the pilot study; to add a second timepoint of data collection for the teacher reports to questions about children; to provide one new instrument to collect parent report of children's skills and behaviors; and to provide one new instrument in anticipation of COVID–19 necessitating further information gathering to contextualize findings from the impact evaluation and process study.

DATES: *Comments due within 30 days of publication.* OMB must make a decision about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

Description: Through the VIQI Project, OPRE aims to inform policymakers, practitioners, and stakeholders about effective ways to support the quality and effectiveness of early care and education (ECE) centers for promoting young children's learning and development. The VIQI Project completed a pilot study in about 40 centers in three metropolitan areas in 2018–2019 that is informing a year-long impact evaluation and process study that involves testing the effectiveness of two curricular and professional development models aiming to strengthen the quality of classroom processes and children's outcomes. The impact evaluation and process study is expected to begin in the fall of 2021 and will include about 140 community-based and Head Start ECE centers spread across about 12 different metropolitan areas in the United States.

The VIQI Project will consist of a 3-group experimental design where the initial quality and other characteristics of ECE centers are measured. For details
