SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the airway structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any

recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the office of the Western Service Center, Federal Aviation Administration, 2200 South 216th St., Des Moines, WA 98198.

Incorporation by Reference

Colored Federal Airways are published in paragraph 6009, Jet Routes are published in paragraph 2004, United States Area Navigation Routes are published in paragraph 6011 and paragraph 2006 of FAA Order JO

7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

In 2003, Congress enacted the Vision 100-Century of Aviation Reauthorization Act (Pub. L. 108–176), which established a joint planning and development office in the FAA to manage the work related to the Next Generation Air Transportation System (NextGen). Today, NextGen is an ongoing FAA-led modernization of the nation's air transportation system to make flying safer, more efficient, and more predictable.

In support of NextGen, this proposal is part of an ongoing, large, and comprehensive airway modernization project in the state of Alaska. Part of this project is to transition the Alaskan en route navigation structure away from dependency on NDBs and move to develop and improve the RNAV route structure. The FAA is planning to decommission the Shemya, AK, NDB. As a result, portions of G–8 and J–115 will become unusable. Currently, G–8 extends between the Shemya NDB and the Kachemak, AK, NDB. The FAA is proposing to revoke the segment of G–8 that extends between the Shemya NDB and the Mount Moffet, AK, NDB. The mitigation to the loss of this segment of G–8 is the existing RNAV Route T–227. J–115 currently extends between the Shemya NDB and the Deadhorse, AK, Very High Frequency Omnidirectional Range/Distance Measuring Equipment (VOR/DME). The FAA is proposing to revoke the segment of J–115 that extends between the Shemya NDB and the Mount Moffet NDB. The mitigation to the loss of this segment of J–115 is RNAV Route Q–188, proposed in this airspace action. The FAA is also proposing to amend RNAV Route T–227 by adding the DEJJE, AK, waypoint (WP) to the route. This amendment will allow enroute transition with instrument procedures at the Adak Airport (ADK). RNAV Route Q–188 would be a direct

overlay of the portion of J–115 that is proposed to be revoked.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to amend Colored Federal Airway Green 8 (G–8), Jet Route J–115, and RNAV Route T–227, and establish RNAV Route Q–188 in Alaska. The FAA is proposing this action due to the pending decommissioning of the Shemya, AK, NDB.

G–8: G–8 currently extends between the Shemya, AK, NDB and the Kachemak, AK, NDB. The FAA proposes to revoke the segment of G–8 that extends between the Shemya NDB and the Mount Moffet, AK, NDB. As amended, G–8 would extend between the Mount Moffet NDB and the Kachemak NDB.

J–115: J–115 currently extends between the Shemya, AK, NDB and the Deadhorse, AK, VOR/DME. The FAA proposes to revoke the segment of J–115 that extends between the Shemya NDB and the Mount Moffet, AK, NDB. As amended, J–115 would extend between the Mount Moffet, AK, NDB and the Deadhorse VOR/DME.

T–227: T–227 currently extends between the Shemya, AK, VOR/Tactical Air Navigation (VORTAC) and the Deadhorse, AK, VOR/DME. The FAA proposes to amend RNAV Route T–227 by adding the DEJJE, AK, WP to the route. As amended, T–227 would extend between the Shemya VORTAC and the Deadhorse VOR/DME.

Q–188: The FAA proposes to establish RNAV Route Q–188. As established, this route would extend between the Shemya, AK, VORTAC and the Mount Moffet, AK, NDB.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities

under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
