

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Public Notice for Waiver for Aeronautical Land-Use Assurance at Lockhart Municipal Airport, Lockhart, TX**

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of intent for waiver of aeronautical land-use.

SUMMARY: The Federal Aviation Administration (FAA) is considering a proposal to change a portion of the airport from aeronautical use to nonaeronautical use and to authorize the conversion of the airport property. The proposal consists of one parcel of land containing a total of approximately 5.143 acres located on the east side of the airport, north of Airport Road and west of US Highway 183.

The parcel was originally acquired as part of a grant in 1948. The land comprising this parcel is outside the forecasted need for aviation development and, thus, is no longer needed for indirect or direct aeronautical use. The airport wishes to develop this land for compatible commercial, nonaeronautical use. The income from the conversion of this parcel will benefit the aviation community by reinvestment in the airport.

Approval does not constitute a commitment by the FAA to financially assist in the conversion of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA. The disposition of proceeds from the conversion of the airport property will be in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in the **Federal Register** on February 16, 1999. In accordance with Section 47107(h) of Title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.
