*Release of Empty Containers Unladen at a Port*

Any empty containers that are unladen at a United States port will be considered automatically released from Customs custody, unless the local Customs office indicates by physical means (by telephone or facsimile notification) that some empty containers are to be held. No electronic status notifications will be generated related to the empty container list transmitted. The AMS Empty Container Module does not allow electronic holds to be placed on empty containers.

**Evaluations of Carrier Compliance; Checklists**

In implementing the program test, Customs developed a paperless manifest standards checklist for determining carrier compliance with all test parameters and operating procedures required under the program test. However, this paperless manifest standards checklist and associated reviews that were established to evaluate carrier performance in the program test are being discontinued.

Anyone interested in participating in the test should refer to the test notice published in the September 10, 1996, **Federal Register** for eligibility and application information.

The information is used to evaluate qualifications, ensure against conflicts of interest, and allow appropriate organization officials to certify the character and qualifications applicants. It is designed to ensure that regulatory standards for accreditation have been met so that claimants for VA benefits have available a pool of qualified claims representatives to assist them in the preparation, presentation, and prosecution of their claims.

VA Form 22a is used by a claimant for VA benefits to confer power of attorney upon an attorney, agent, or individual service organization representative in order that the attorney, agent, or individual representative may represent the claimant in proceedings before VA. Generally, this power of attorney permits VA to release to the attorney, agent, or individual representative records pertinent to the benefit claim.
