#### Withdrawal of Application for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301), the Department of Commerce determines whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 2104, Statutory Import Programs Staff, U.S. Department of Commerce 14th and Constitution Ave., NW, Room 2104 Washington, D.C. 20230.

**Docket Number:** 08-046. Applicant: Rice University, 6100 Main Street MS-61, Houston, TX 77005. Instrument: Gemstar camera with photon counting sensitivity. Manufacturer: Photonic Science, United Kingdom. Intended Use: The instrument is intended to be used to record x-ray diffraction from lipidic structures. Application accepted by Commissioner of Customs and Border Protection: August 22, 2008. The Department of Commerce received the Rice University application from Customs and Border Protection on September 2, 2008. The application was reviewed and the Department determined that the application did not have sufficient information for the Department to determine whether an equivalent instrument was being produced in the United States. In accordance with section 301.5(a)(2), the Department contacted the University to

afford them an opportunity to supplement the application by providing further information regarding the purpose of the instrument and whether an equivalent instrument was being produced in the United States. Rice University then informed the Department that they had discovered price was the determining factor in selecting the instrument. The University decided to withdraw the application for the x-ray Gemstar Camera with Photon counting sensitivity since they had been made aware that price could not be considered a pertinent specification in the comparison of instruments, in accordance with section 301.2(s).

Therefore, the Department of Commerce had discontinued the processing of this application, in accordance with section 301.5(g) of the regulations. See 15 CFR 301.5(g).

#### Atlantic Highly Migratory Species; Atlantic Shark Management Measures

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Extension of comment period.

**SUMMARY:** In order to provide additional opportunities for the public, the Atlantic Regional Fishery Management Councils, the Atlantic and Gulf States Marine Fisheries Commissions, and other interested parties to comment on the Notice of Intent (NOI) and issues and options scoping presentation for Amendment 3 to the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP), NMFS is extending the scoping comment period for this action. On May 7, 2008, NMFS published an NOI to initiate an amendment to the 2006 Consolidated HMS FMP, including an Environmental Impact Statement. On July 2, 2008, NMFS published a notice that announced the availability of an issues and options scoping presentation describing potential measures for inclusion in Amendment 3 to the 2006 Consolidated HMS FMP and provided

details for four scoping meetings to discuss and collect comments on these issues. Based on the July 2, 2008, notice, the comment period was scheduled to conclude on October 31, 2008. NMFS is now extending the comment period until November 14, 2008. Comments received by NMFS on the NOI and issues and options scoping presentation as well as in the scoping meetings will be used in the development of Amendment 3 to the 2006 Consolidated HMS FMP.

**DATES:** The deadline for comments on the NOI and the issues and options scoping presentation has been extended from October 31, 2008, as published on July 2, 2008 (73 FR 37932), to 5:00 p.m. on November 14, 2008.

**ADDRESSES:** As published on July 2, 2008 (73 FR 37932), written comments on this action should be sent to Karyl Brewster-Geisz, Highly Migratory Species Management Division, by any of the following methods:

- E-mail: [SCS\\_Scoping@noaa.gov](mailto:SCS_Scoping@noaa.gov). Include the following identifier in the subject line: "Scoping Comments on Amendment 3 to Consolidated HMS FMP".

**SUPPLEMENTARY INFORMATION:** The Atlantic shark fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The 2006 Consolidated HMS FMP is implemented by regulations at 50 CFR part 635.

On May 7, 2008 (73 FR 25665), NMFS published an NOI that summarized the 2007 Small Coastal Shark (SCS) stock assessment conducted for Atlantic sharpnose, blacknose, bonnethead, and finetooth sharks. The NOI also described NMFS's determination of the status of these stocks based on the results of the 2007 stock assessment, including the determination that blacknose sharks are overfished with overfishing occurring. As a result of this determination, NMFS is taking steps to amend current shark management measures via a third FMP amendment to the 2006 Consolidated HMS FMP. On July 2, 2008 (73 FR 37932), NMFS

published a notice that announced the availability of an issues and options scoping presentation describing potential measures for inclusion in Amendment 3 to the 2006 Consolidated HMS FMP and provided details for four scoping meetings to discuss and collect comments on these issues. NMFS anticipates completing this amendment and any related documents by January 1, 2010.

Due to the timing of the Gulf of Mexico Fishery Management Council's meeting at the end of October, NMFS is extending the comment period to provide additional opportunity for the public, the Atlantic Regional Fishery Management Councils, the Atlantic and Gulf States Marine Fisheries Commissions, and other interested parties to comment on potential SCS management measures. These comments will assist NMFS in determining the options for rulemaking to conserve and manage shark resources and fisheries, consistent with the Magnuson-Stevens Act and the 2006 Consolidated HMS FMP.
